

INTERNATIONAL
MEDICAL
CLINIC

Group Practice Pharmacist

International Medical Clinic (IMC) provides family, paediatric, and travel medicine to the expatriate community of Singapore. Please view www.imc-healthcare.com

In the past we have utilised our registered nurses to dispense medications. With the continued growth of IMC, and the importance of proper dispensing practices, we have decided to employ our first pharmacist.

The pharmacist will oversee our dispensing practices in all our clinics, in a hands-on role. We wish to take the standard and service of our dispensing function to another level through the employment of the right pharmacist.

Responsibilities will include:

- The enhancement of our dispensing protocols and procedures;
- The supervision of our dispensing function, including the teaching and provision of medication information to other medical support staff;
- Working with our doctors to ensure that the needs of our patients are met
- through the range and inventory of medications carried;
- Working with our doctors to enhance the patient education aspect of our dispensing function;
- Effectively purchasing all medications and maintaining adequate stocks of our medications.

For more details of the position, please view www.imc-healthcare.com/pharmacist. If you desire to join a close-knitted, dynamic and professional clinical team, please forward your application with your CV to hr@imc-healthcare.com
