BioLogistics

Asia 2009

SINGAPORE

16-19 March 2009

Suntec International Convention & Exhibition Centre, Singapore

www.terrapinn.com/2009/biolog

BioLogistics Asia 2009 is Asia's only definitive logistics and supply chain focused event. It will congregate senior level pharmaceutical and biotech manufacturers, clinical researchers, distributors and solution providers for an insightful knowledge-sharing session. It comprehensively discusses how manufacturers can tailor and improve their logistics and supply chain processes that are unique to Asia market to achieve speed to market, secure supply chain and greater cost advantage.

- **Over 30 biotechs and pharmaceuticals** will share strategies that are unique to Asia to achieve visibility and security across the entire supply chain
- **Experts from leading biopharmaceutical companies** will present case studies to give valuable insights and advice to help you develop your own company's logistics and supply chain strategy
- **Leading logistics solution providers** will share collaborative partnership in achieving a dynamic, synchronized and efficient logistics model
- **Supply chain and logistics solution providers** will present and identify the latest technologies that will foster supply chain transparency and integration to ensure compliance and speed to market

Key logistics and supply chain professionals from **Amgen, Merck Serono, Sanofi-Aventis, Baxter, Sanofi-Pasteur, GlaxoSmithKline, NovoNordisk, Schering-Plough** and **UCB-Group** will share insights into critical logistics and supply chain management issues, cold chain management, regulatory compliance, demand forecasting, inventory management, distribution & export strategies, reducing drug counterfeiting and more.
