

Bristol-Myers Squibb Company

**ASSOCIATE DIRECTOR/ DIRECTOR REGULATORY - REGIONAL
OPPORTUNITY FOR A PHARMACEUTICAL COMPANY**

Our company is a leading pharmaceutical firm with a mission to extend and enhance human life. We offer a unique Regulatory opportunity to influence global drug development to ensure Regulatory success in Asia-Pacific. With our continuing drive to expand our Asia Pacific business, the company is looking for a dynamic and proactive individual to assume the role of Director, Regulatory Strategy for Asia Pacific.

This role is based in the Asia Pacific regional office in Singapore, the position will report to the Executive Director for Regulatory Asia Pacific.

This position will provide strategic regulatory guidance to both global US regulatory teams and regional brand development teams on a product/products level.

Responsibilities:

- Provide strategic regulatory guidance in shaping the product label in collaboration with regional and global brand teams
- Remain in the forefront of relevant science and competitive regulatory landscapes
- Identify opportunities to optimize regulatory strategies by providing strategic and pro-active direction to global development teams
- Manage the strategies of health authority interactions at the brand level

Requirements:

- Masters Degree in life sciences, MD or PhD preferred
- Minimum of five year's Pharmaceutical regulatory, clinical or drug development experience
- Excellent leadership skills with an ability to champion well thought out and aligned regulatory plans
- Ability to deliver persuasive presentations externally to Health Authorities and to regional and global US teams.
