## PRESIDENT'S MESSAGE

Thank you for being part of the Pharmaceutical Society of Singapore (PSS) Pharmily. I am humbled to be elected as PSS President in April 2022, taking over the helm from Ms Yong Pei Chean. It has been a rocky start for me as we saw two of our long serving Secretariat staff (Senior Executive and Administrative / IT Executive) leaving to pursue new portfolios in May and June respectively. Although it had been a formidable task to maintain the day to day operations and activities with the staff transition, it has provided Council with the opportunity to relook at some of our internal processes and policies, to revise and strengthen work processes. Hence, we were able to continue with the delivery of the usual PSS activities, including our 2 major events: the annual Singapore Pharmacy Congress (inaugural hybrid format) and Pharmacy Week 2022. This feat would not have been possible if we did not have strong support from our volunteer members. Hence, I am immensely grateful to all our volunteers who had stepped forward, displayed grit and resilience, passion for the profession and their ever willingness to serve on our various committees and workgroups.

I am pleased to present the Annual Report of PSS for 2022. It serves as a good summary of our key activities, achievements and milestones. The theme for this year's annual report is "Reflect, Reconnect, Reinvent". The past 3 years flew by, with all of us busy in the fight against COVID-19. Hence, it is timely for us to reflect on our next steps as the nation transit into an endemic phase yet carrying on the baggage of high burnout among our fellow friends and colleagues.

**DR SHIH LEE CHUEN, VIVIANNE**

We held a PSS retreat on 29 October 2022 to reflect on the achievements and activities of PSS over the recent years as well as the strategic goals for the next few years with our pharmacy leaders, Council mentors and Chairpersons of various chapters. PSS's strategic priorities are to engage our members, to guide and groom future leaders for the profession, provide a steady stream of high quality resources for our members to stay relevant and last but not least, to be the voice of the profession. Even though PSS does not hold any legislative power as a not for profit organisation, we can still be that independent voice for the profession and be advocates for patients when it comes to healthcare related matters.

In the past year, PSS has been proactive in re-establishing our connections with the National University of Singapore (NUS) Pharmaceutical Society, Department of Pharmacy, NUS and the Health Sciences Authority. At the same time, reaching out to engage with new external stakeholders such as the Singapore Association of Pharmaceutical Industries (SAPI) and the various pharmaceutical companies. We trust that through fostering stronger ties and long term relationships, there will be more opportunities for collaboration.

## PRESIDENT'S MESSAGE

### DR SHIH LEE CHUEN, VIVIANNE

PSS will also look for suitable opportunities for our members to share their expertise at regional and international platforms and to network with fellow pharmacists. For example, we nominated our members who could provide their expertise in roundtable discussions organized by the International Pharmaceutical Federation (FIP). We also nominated a speaker to share on "Digitalization and Leadership in the Community Pharmacy: A Singapore Perspective" in the Bali Pharmacy Festival that was organized by the Ikatan Apoteker Indonesia (IAI) Pengurus Daerah Bali, a regional chapter of the Indonesian Pharmacists Association. I was also honoured to be invited to speak at the ACCP Global Conference on Clinical Pharmacy 2022 on "Digital Transformation of Clinical Pharmacy Services in Singapore".

As for professional education sessions, we are continuing with the online Zoom platforms for evening CPEs. Our community chapter is currently reviewing the PSS Guidelines for Telepharmacy and Tele-Pharmaceutical Care Services and will continue to make the modules of the Practice Guide for Minor Ailments (PGMA) available on our website. To support our pharmacy ancillary staff, I am pleased to inform that in July 2022, PSS rolled out the revamped WSQ Advanced Certificate in Healthcare (Pharmacy Support) and we had conducted 2 cohort runs in 2022. PSS also collaborated with the Singapore General Hospital and clinched the InnovPlus Grant to curate training for healthcare professionals.

In the coming year, PSS will continue to focus on strengthening our Secretariat, provide valuable resources for members' growth, and improve our engagement with members and better establish what matters to them. We will continue with the plan to revamp our PSS website which had met with some roadblocks and a workgroup will be set up to oversee this. We aim to upgrade our website to better serve the needs of our members and respective stakeholders, hopefully within the next year.

Last but not least, I would like to take this opportunity to thank everyone who had supported me in my one-year journey as PSS President. I am deeply grateful to PSS Fellows and mentors for their invaluable advice, PSS Council members for working with me, offering their valuable insights in order to deliver our work plans for the society and to all our volunteers for their selfless contributions. This is truly reflective of "Not for self, but for all".

Please do stay connected with PSS and if you have any feedback or wish to join any of PSS chapters or workgroups, do email me at [president@pss.org.sg](mailto:president@pss.org.sg).

Thank you.

**Dr Vivianne Shih**

President, 116th Council

Pharmaceutical Society of Singapore

**MS. GRACE CHEW**

## HONORARY TREASURER'S MESSAGE

**"I am glad to inform that we ended the year with a surplus of \$55,323.25"**

Navigating out of the COVID-19 pandemic and negative fiscal year 2021, we threaded carefully on our accounts in year 2022. With everyone's combined efforts, I am glad to inform that we ended the year with a surplus of \$55,323.25.

### ***Financial Condition of the Association***

With the surplus, we are able to transfer 80% of this amount to our building fund. After addition, our building fund stands at \$1,588,906, with \$1 million invested in fixed deposits. Although expenses grew 24% vs last year, we grew our income even more, at 69% more than FY2021.

### ***Income Drivers***

PSS's top income drivers came from membership subscriptions, seminars & courses, and Pharmacy Congress. The greatest increase was from seminars & courses, mainly driven by our 37th CPTC run.

### ***Income Drivers***

PSS's top income drivers came from membership subscriptions, seminars & courses, and Pharmacy Congress. The greatest increase was from seminars & courses, mainly driven by our 37th CPTC run.

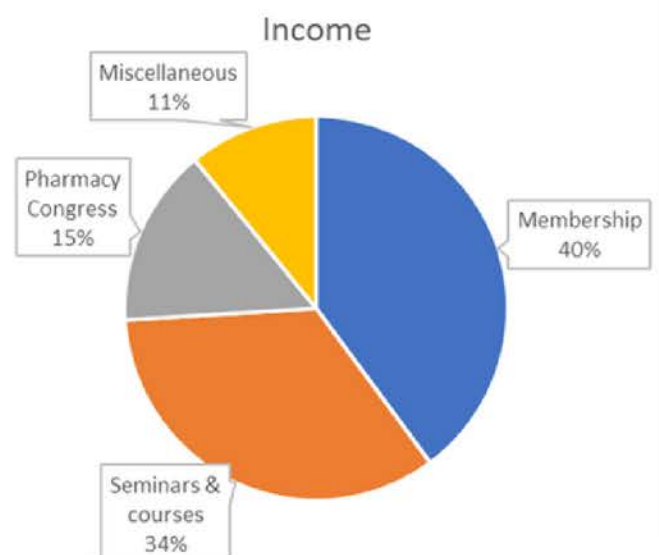

Figure 1: FY2022 Income contributions

## HONORARY TREASURER'S MESSAGE

### Main Expenditures

The society's top expenditures came from secretariat manpower, seminars & courses, memberships written off and office rental. Comparing FY2022 against FY2021, the main difference in the expenditure model was attributed a respective increase in expenses of seminars & courses.

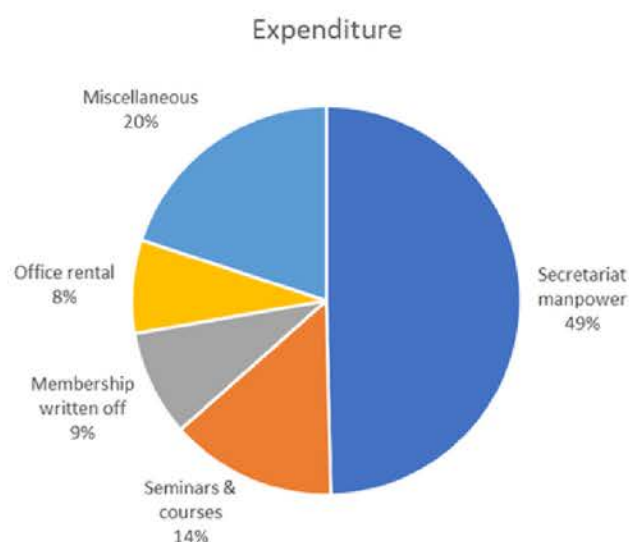

Figure 2: Expenditure contributions

### Future outlook

In FY2023, we can look forward to more seminars and courses, as well as lower depreciation from current assets. However, we should also balance our expectations as we need to upgrade our IT infrastructure, continue attracting more members, and manage rising labour costs.

For full details of PSS's financial standing in FY2022, it would be made available at the physical annual general meeting scheduled on 25 Mar 2023.

I would like to thank

- our President, Dr Vivianne Shih
- Immediate past Honorary Treasurer, Mr Ivan Ng
- Assistant Honorary Treasurer, Dr Yap Kai Zhen
- Accountant, Ms Jennifer Choo
- Financial Advisory Chairperson, Mr YK Png
- and PSS Secretariat

for their valuable guidance and support as we navigate the society in this volatile environment.

Ms Grace Chew  
Honorary Treasurer , 116th Council  
Pharmaceutical Society of Singapore

# PSS Retreat 2022: Emergence

**Ns, Vernadine Goh**

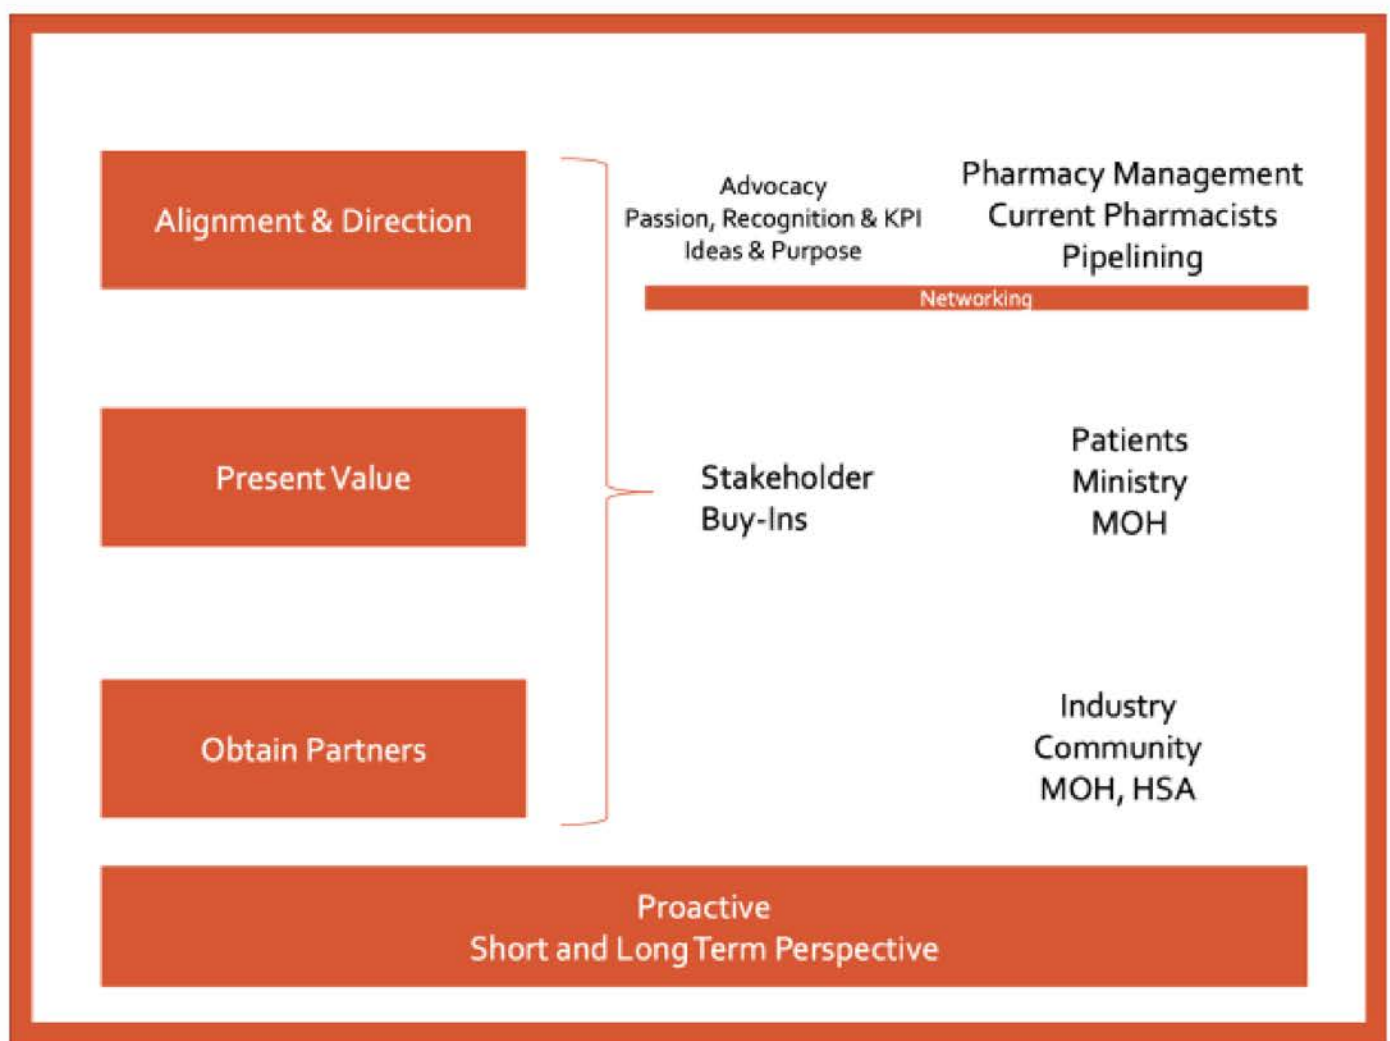

The PSS Retreat 2022 took place on 29th October, Saturday, at the Centre for Healthcare Innovation. Organized by the PSS 116th Council, the event was attended by the Chief Pharmacist of the Ministry of Health, Dr Camilla Wong, current and future pharmacy leaders from various sectors, and young PSS volunteer pharmacists. The aim of the retreat was to discuss strategic directions and plans for the society in the next 3 years (2023-2025).

The session was kickstarted by PSS President, Dr Vivianne Shih, who gave the welcome address, followed by Dr Camilla's talk titled Riding on the Forces of Change, which gave participants a brief overview on the National Pharmacy Strategy, the integration of Pharmacy services into the Healthier SG strategy, and also PHARMFORCE. It was established that PSS would be a key partner in achieving the goals of the PHARMAFORCE initiative.

The participants were then split into smaller groups to discuss the following topics:

- Voice of the Profession
- Healthier SG
- PSS Membership

The general consensus was that stakeholder buy-in is critical to achieve these goals. These stakeholders include both internal pharmacy clients at all levels of the profession and external audience including the patient population, industry partners and government bodies. The Pharmacy Leadership would need to set the short and long term strategic directions, communicating and aligning with the pharmacy community, so as to deepen our value proposition to our external customers. PSS would work to be the platform connecting all pharmacists towards a common goal.

# Western Pacific Pharmaceutical Forum (WPPF)

**A/Prof Chui Wai Keung**

During the period of 2022, due to the COVID-19 pandemic, the Executive Committee of the WPPF did not meet face-to-face. However, the committee continued to meet 4 times online in April, August, June and October 2022. An AGM was conducted online on 12th November 2022.

The forum since its inception has continued to play active roles in

- (i) improving pharmacy practice among the developing countries in the Western Pacific Region (WPR)
- (ii) facilitating more collaborative activities between pharmacy associations in the WPR
- (iii) collaborating with the WHO Regional Office to advance pharmacy practice and the pharmacy workforce and
- (iv) supporting FIP policies in the WPR.

In 2022, the Executive Committee of the WPPF comprises the following members:

Position	Name	Country
<b>President</b>	Mr John Jackson	Australia
<b>Vice President</b>	Prof Wai Keung Chui	Singapore
<b>Member</b>	Dr Nobuo Yamamoto	Japan
<b>Member</b>	Ms Leonie Ocampo	Philippines
<b>Member</b>	Prof Jaw-Jou Kang	China Taiwan
<b>Member</b>	Dr Sang Hoon Joo	Korea
<b>Member</b>	Ms Zuzaan Zulzaga	Mongolia
<b>General Secretary</b>	Mr Reynaldo Umali	Philippines
<b>Executive Secretary</b>	Dr Suzanne Caliph	Australia
<b>Observer</b>	Dr Parisa Aslani	FIP Vice President
<b>Observer</b>	Dr Lina Bader	FIP Account Manager

The main activity that took place in 2022 was a discussion on the integration of the forums into FIP. WPPF was involved in multiple discussions with FIP in this aspect.

The WPPF has engaged with FIP and the other Regional Forums in the Integration Taskforce to negotiate the incorporation of the Forums into FIP. This has included activities that took place over 2021 and 2022:

- Forum Integration Taskforce meetings; 26th June; 23rd August, & 9th Dec. 2021.
- Meetings of the working group to review the statutes; 30th September; 26th October; and 9th November 2021.
- Meeting of the ExCo of the Regional Forums on 2nd November 2021.
- A working group on membership fees on 23rd March 2022.

WPPF is supportive of integration as long as existing capacity, services and viability are not compromised excessively.

# Spring Clean into 2022 Campaign: #DeclutterYourMeds

## Public Education Chapter

**#DeclutterYourMeds**, a virtual medication wastage reduction campaign was launched in January 2022 by the Public Education Chapter. This campaign was inspired by the Chinese tradition of spring cleaning one's home prior to Lunar New Year, and aims to educate and promote behavioural changes in patients in their medication management process such as collecting only what is needed, taking medications in the appropriate and safe manner, and monitoring for outcomes of medicines use. 40 lucky participants of the campaign's quiz were rewarded with a \$10 Grab Food voucher.

## COVID-19 Mythbusters!

### Public Education Chapter

#### COVID-19 MYTHS BUSTED

##### MYTH:

I no longer have to worry about COVID-19 as it seems like the pandemic is over.

##### FACT:

While Singapore transits towards living with COVID-19, you should still exercise social responsibility and observe the following safe management measures, to help the current situation remain stable.

- Test yourself for COVID-19 if you feel unwell.
- Rest at home if you test positive. You can get medications for relieving symptoms from a retail pharmacy. Visit a doctor if you need any medical attention, and go to the Emergency Department only if there is a medical emergency.
- Get vaccinated and boosted when eligible.

Brought to you by Public Education Chapter of The Pharmaceutical Society of Singapore

#### COVID-19 MYTHS BUSTED

##### MYTH:

To recover faster from COVID-19 infection, I must take over-the-counter medications regularly until I'm tested negative.

##### FACT:

Most over-the-counter medications can help to reduce symptoms of fever, runny and blocked nose, cough and sore throat from COVID-19 infection. However, these medications will not quicken your recovery from COVID-19 infection. Moreover, different individuals may have different symptoms. Hence, you only need to take the relevant medications to treat the symptoms you have and stop taking the medications when your symptoms are gone.

Brought to you by Public Education Chapter of The Pharmaceutical Society of Singapore

#### COVID-19 MYTHS BUSTED

##### MYTH:

With the relaxed COVID-19 measures, I can throw all my face masks away now.

##### FACT:

Do not throw away your masks yet. Mask wearing is still needed on public transports and in healthcare facilities. If you feel unwell, it may also be good to put on a mask to protect those around you from becoming ill.

Brought to you by Public Education Chapter of The Pharmaceutical Society of Singapore

#### COVID-19 MYTHS BUSTED

##### MYTH:

My favorite brand of over-the-counter medication is finally being sold again after being out of stock for a long time. I should buy more to stock up at home in case I need to take it.

##### FACT:

Although it may be a good idea to keep some common symptom-relief medicines at home, buying too much may contribute to waste of money and resources if the medicines are not used before its expiry date. Furthermore, buying what you need only when you need them can allow others to access the treatment they need.

Brought to you by Public Education Chapter of The Pharmaceutical Society of Singapore

#### COVID-19 MYTHS BUSTED

##### MYTH:

I must take a particular brand of medication to treat my fever, sore throat, cough and runny nose. If the medicine is sold out everywhere, I will not have any.

##### FACT:

Medications to treat these symptoms are available under many different brand names. If a particular product that you prefer runs out of stock, you may speak to a pharmacist for recommendations of alternative products that have similar active ingredients that are as effective.

Brought to you by Public Education Chapter of The Pharmaceutical Society of Singapore

Pharmacists are regarded as a trusted reliable source of information to the community. Besides providing counselling and education to patients – pharmacists are in good stead as advocates to promote public health literacy and activation for optimal medication self-management and health as well as to correct any health misconceptions.

As the COVID-19 restrictions finally begin to ease, the Public Education Chapter has prepared a final series of myth-busting posters to educate the public "how to manage and live with the virus". These posters were shared on social media platforms on October 2, 2022.

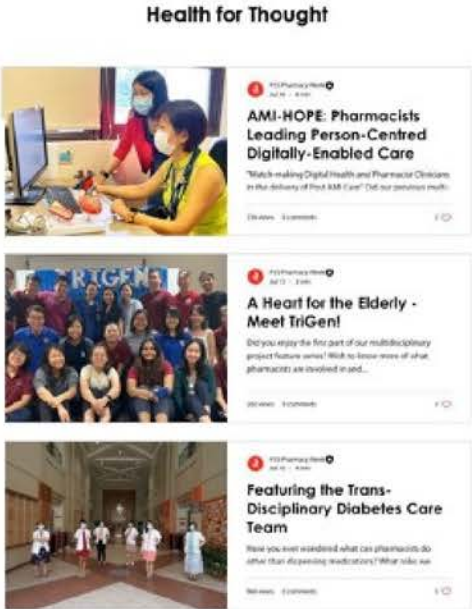

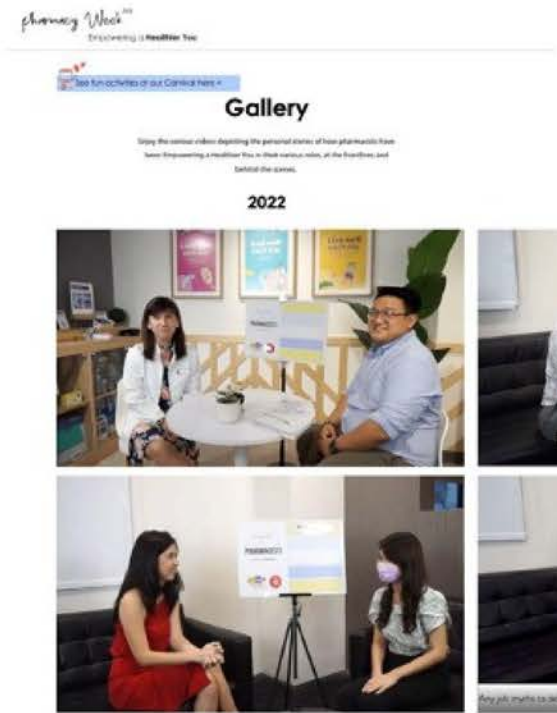

# Successful Hybrid Pharmacy Week 2022

Pharmacy Week 2022 Organising Committee

Pharmacy Week took place from 19th to 25th September 2022 with a health carnival held on 24th September at the Nee Soon East Seniors' Hub. The theme was "Empowering A Healthier You", emphasising on the importance of a holistic health ownership encompassing medications, fitness and diet in alignment with the Ministry of Health's population health strategy, HealthierSG.

In addition to the health talks, an inaugural cooking demonstration and fitness workout were held that attracted more than 600 members of the public. There were also interactive booths that kept the public engaged and empowered on health information. To increase reach, the carnival was streamed online and garnered 200 virtual participants.

## ADVOCATING FOR OUR PATIENTS' INTEREST

Fringe activities such as the “Ask Your Pharmacist!” programme, multi-disciplinary project features, pharmacist video features, “Pharm Fact Friday” series were organised to keep the public engaged for the lead up towards Pharmacy Week. These engaging materials can be found on our official event website <https://www.psspharmacyweek.com>. More than 250,000 members of the public were reached out through our online engagement and publicity efforts. Positive feedback was received from participants in the “Ask Your Pharmacist!” programme as part of the social media content.

A successful Pharmacy Week was only made possible with the support from our partners, volunteers, sponsors and most of all, our 27-man strong organising committee.

## National Medication Information Workgroup

### Public Education Chapter

The Public Education Chapter continued to support the National Medication Information (NMI) workgroup by reviewing their drafts of the medication information leaflets (MILs) prior to their publication on HealthHub. The vetting involved rephrasing and simplifying of the language used to enhance comprehensibility and understanding by lay persons.

An online campaign was conducted on 30 October 2022 to promote the availability of the Medication Information leaflet on HealthHub.

## KNOW YOUR MEDICINE

NOW WITH HEALTHHUB A-Z

Brought to you by

### STEP 1

Choose the first alphabet of your medication name

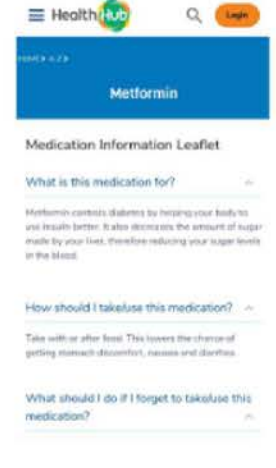

### STEP 2

Select your medication

### STEP 3

Access reliable information on your medication

### What information will I find here?

- What is my medication for?
- How to take my medication?
- What should I do if I forgot to take my medication?
- What are the common side effects of my medication?
- How should I store my medications?

Scan to access on **HealthHub**:  
Or visit **healthhub.sg/a-z**

# ADVOCATING FOR OUR PATIENTS' INTEREST

The chapter also prepared posters to educate the members of the public on off-label medication use. The posters were uploaded onto social media platforms on 21 November 2022. A total of 1474 people have viewed the posters as of 15 December 2022 on our Facebook page.

## What do I need to know about "off-label" use of medications?

Ask your doctor and/or pharmacist...

- ✓ What is the medication approved for?
- ✓ What **evidence** support the use of the medication for your condition?
- ✓ What are the **other** treatment options?
- ✓ What are the **side-effects** of the medication?
- ✓ What is the **cost** of the medication?

Brought to you by: Pharmaceutical Society of Singapore, Public Education Chapter

## When are medications used "off-label"?

"Off-label" medication use is more common in conditions and patient populations which are less likely to be included in large scale studies.

Examples:

In rare conditions

In advanced cancers

In comfort care

In psychiatric conditions

In children

In pregnant women

Brought to you by: Pharmaceutical Society of Singapore, Public Education Chapter

## How do medications get regulatory approval?

All medications available in Singapore have been approved by the Health Sciences Authority (HSA).

In order to get the approval, pharmaceutical companies must submit data from studies to HSA for evaluation.

If the medication is approved, the approval only applies to the specific medical condition(s), patient population(s), dosage(s) and route(s) covered by the studies.

Brought to you by: Pharmaceutical Society of Singapore, Public Education Chapter

## What is "off label" medication use?

"Off-label" use of a medication refers to its use in a medical condition, patient population, dosage or route of administration that is **different** from what is described in its license.

Brought to you by: Pharmaceutical Society of Singapore, Public Education Chapter

## Why do I need to know about "off-label" use of medications?

Taking a medication for an "off-label" use can be safe and effective.

Both you and your doctor should agree that the potential benefit of taking the medication outweighs the potential risks.

Speak to your doctor and/or pharmacist for more information on your medication.

Brought to you by: Pharmaceutical Society of Singapore, Public Education Chapter

## When are medications used "off-label"?

A doctor may prescribe a medication for "off-label" use when:

1. There is no suitable approved medication for your condition.
2. The "off-label" medication has been shown to be **safer** or **more effective** than other alternative(s).

Brought to you by: Pharmaceutical Society of Singapore, Public Education Chapter

Singapore

# Still feel unwell after testing negative for COVID-19? How to manage post-infection symptoms

**Chew Hui Min**

@ChewHuiMinCNA

23 Mar 2022 01:00PM

(Updated: 23 Mar 2022 01:52PM)

## CNA Lifestyle Article

Media and Communications Committee

In March 2022, CNA lifestyle sought collaboration with for a public education article on the management of post-COVID symptoms. Although the majority of the COVID cases in Singapore are considered mild cases, there are a minority who experience lasting symptoms even after recovery and testing negative for the virus. Thus, the aims to identify cause of this and how to manage this problem.

Mr Shawn Lee, a representative of the Media and Communications Committee crafted the response for this query and shared his expertise this subject matter. The article was released on 23rd March 2022

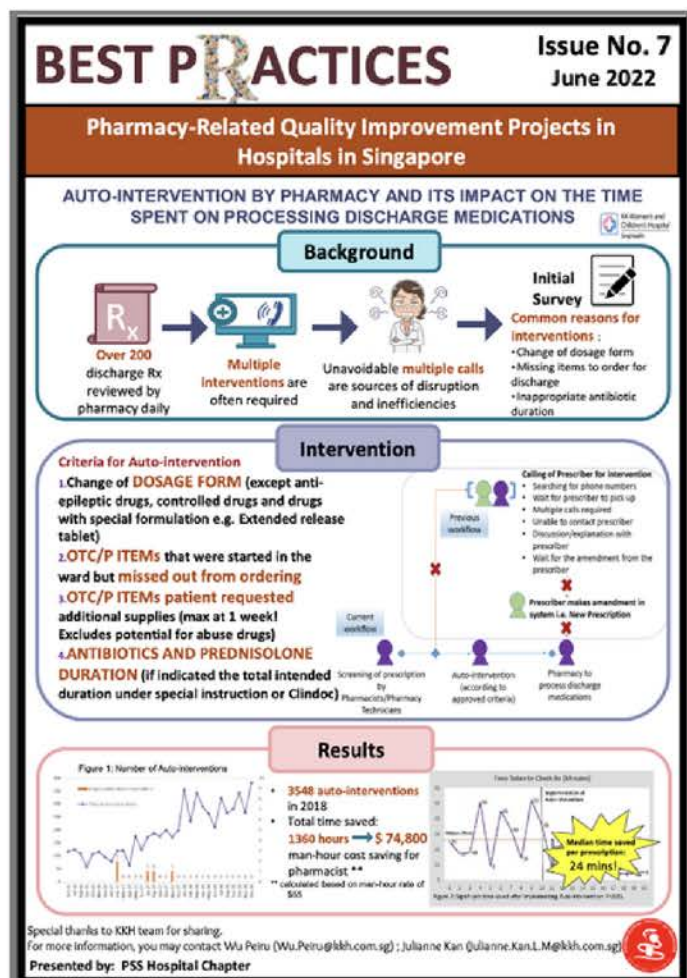

Link: <https://www.channelnewsasia.com/singapore/long-covid-symptoms-cough-breathless-fatigue-pasc-therapy-recover-2579021>.

## Supporting our Pharmacists

### Hospital Chapter

In August 2022, Hospital Chapter collaborated with the Infectious Diseases Special Interest Group (IDSIG) to create a pocket guide to support pharmacists in recommending COVID-19 vaccinations and caring for patients with COVID-19. This COVID-19 therapeutics guide serves to provide updated information on the vaccines, antiviral therapies, immunomodulators and viral-neutralizing, antibody-based therapies. Moving forward, Hospital Chapter would be focusing on the digitalization of healthcare, care models and population health topics in our future guides.

In a bid to encourage continual improvement in our work processes and to spark innovative ideas, the hospital chapter actively gathers best practices from the various hospitals in Singapore. In June 2022, a project from the inpatient pharmacy of KK Women's and Children's Hospital (KKH), titled "Auto-intervention by Pharmacy and its impact on the Time Spent on processing Discharge Medications" was shared. This project was a huge success as it helped to save a median processing time of 24 minutes/prescription. This translated into \$74,800 man-hour cost savings for pharmacists. We hope to continue the sharing of impactful projects to bring pharmacy practice to greater heights.

## LIVING WITH COVID

### A. Increasing options for vaccination

4 COVID Vaccines available:

1. Pfizer-BioNTech/COMIRNATY, 2. Moderna/Spikevax, 3. Sinovac-CoronaVac, 4. Nuvaxovid

The latest addition, Nuvaxovid, is a protein-based vaccine for individuals > 18 years old

**Primary series** - Two doses of Nuvaxovid, at least 21 days apart.

**Booster** - Five months after last dose of vaccine

Approved based on safety and efficacy. However, mRNA vaccines still remain the preferred vaccines due to their higher efficacy and the stronger immune response generated.

### B. Recommendations for 2nd booster vaccine

Locally, the 1st mRNA booster vaccine has been shown to sustain protection against severe disease.

However, internationally, vaccine efficacy against hospitalisation has been shown to decline after the 1st mRNA booster vaccine.

Given their higher risk of complications, MOH has therefore recommended for the following population to receive a 2nd booster dose 5 months after their 1st booster dose:

1. **Seniors aged 80 years and above;**
  2. **Residents of aged care facilities (e.g. Nursing Homes); and**
  3. **Medically vulnerable persons, aged 18 and above, who are at increased risk of severe disease due to significant medical risk factors**
- However, seniors aged 50 to 79 years are also eligible if they desire.

## Supporting Best Practice During COVID-19 Pandemic

### Hospital Chapter

During the COVID-19 pandemic, Hospital Chapter featured pharmacists' involvement in overcoming the crisis, highlighting initiatives which included the setting up of community care facilities and teleconsultation services. As Singapore transited towards being endemic with COVID-19, Hospital Chapter continue its efforts to educate the public on related topics to support the public as they learn to live with COVID-19.

An e-bulletin was published in June 2022 that featured various oral antiviral drugs available via prescription, vaccination options, recommendations for booster vaccinations and medications for management to aid with COVID-19 symptoms.

The quick summary was useful for the general public to understand the indications and common side effects of the medications, and also promoted the use of other relevant vaccinations such as influenza and pneumococcal vaccines as a primary prevention to other respiratory illnesses.

# 31st Singapore Pharmacy Congress 2022

SPC 2022 Organising Committee

The 31st Singapore Pharmacy Congress (SPC) 2022 was a much awaited event, bringing together pharmacists from all backgrounds, both in-person and online, in its first hybrid format. Three years since the last in-person SPC at the Suntec Convention and Exhibition Centre, the theme of "Emerging Healthcare in a Brave New World!" drew in nearly 800 participants and 80 abstract submissions from across the country. The theme aligned with the Ministry of Health's Healthier SG initiative, highlighting the vital role of pharmacy in transforming healthcare, emerging in crisis situations, and working towards better health outcomes.

Dr Janil Puthucheary, Senior Minister of State, Ministry of Health and Ministry of Communications and Information, as the Guest of Honour opened the Congress in a powerful symbol of unity by scanning the "31st SPC Check-In" QR codes together with Dr Camilla Wong, Chief Pharmacist, Dr Vivianne Shih, President of 116th PSS Council, and Ms Vivian Chin and Ms Yvonne Ng, 31st SPC Co-Chairpersons. Dr Prem Kumar Nair, the keynote speaker, shared his insights on value-based healthcare and transformation. The two-day program covered a range of topics, including supply chain resiliency, shifts in care delivery, emerging trends, and the future of the pharmacy profession through technological innovation.

*31st SPC 2022 held at Suntec Convention and Exhibition Centre*

*Delegates at the Keynote Lecture of 31st SPC 2022*

*Pharmacists' networking at the Posters and Exhibition Area*

Attendees were also invited to the SPC Social Night, where they connected and caught up over games and food. The 31st SPC 2022 concluded after a series of Pre-congress workshops and two-day programme. It was a highly successful event that served as a platform for the exchange of ideas, inspiration for innovation and research, and an opportunity to expand professional networks. Together, the pharmacy community emerged stronger in a brave new world.

## INSPIRING THE NEXT GENERATION

### Pre-Registration Pharmacists' Training Committee

The PSS Pre-Registration Pharmacists' Training Committee comprises of a team of dedicated preceptors from 18 Singapore Pharmacy Council (SPC) – approved training centres in Singapore. The committee has been working closely with SPC to plan, co-ordinate, review and conduct this training programme for our pre-registration pharmacists.

The opening ceremony was held online on 25th June 2022 and a total of 158 pre-registration pharmacists were enrolled into this programme. Between June to December 2022, a total of 11 lectures were conducted. The topics covered a comprehensive range, that included paediatrics, geriatrics, renal medicine and travel medications. Feedback received were generally positive, and pre-registration pharmacists found the sessions beneficial. With the easing of the COVID-19 restrictions, the Closing Ceremony was held physically on 10th December at the Yong Loo Lin School of Medicine, Tahir Foundation Building, MD1 Lecture Theatre 37.

PSS would also like to sincerely thank all our preceptors for facilitating the lecture programme and to express our deepest appreciation to the speakers, for sharing their knowledge and expertise, and taking time off their busy schedule to speak at these sessions and to share their expertise with our pre-registration pharmacists.

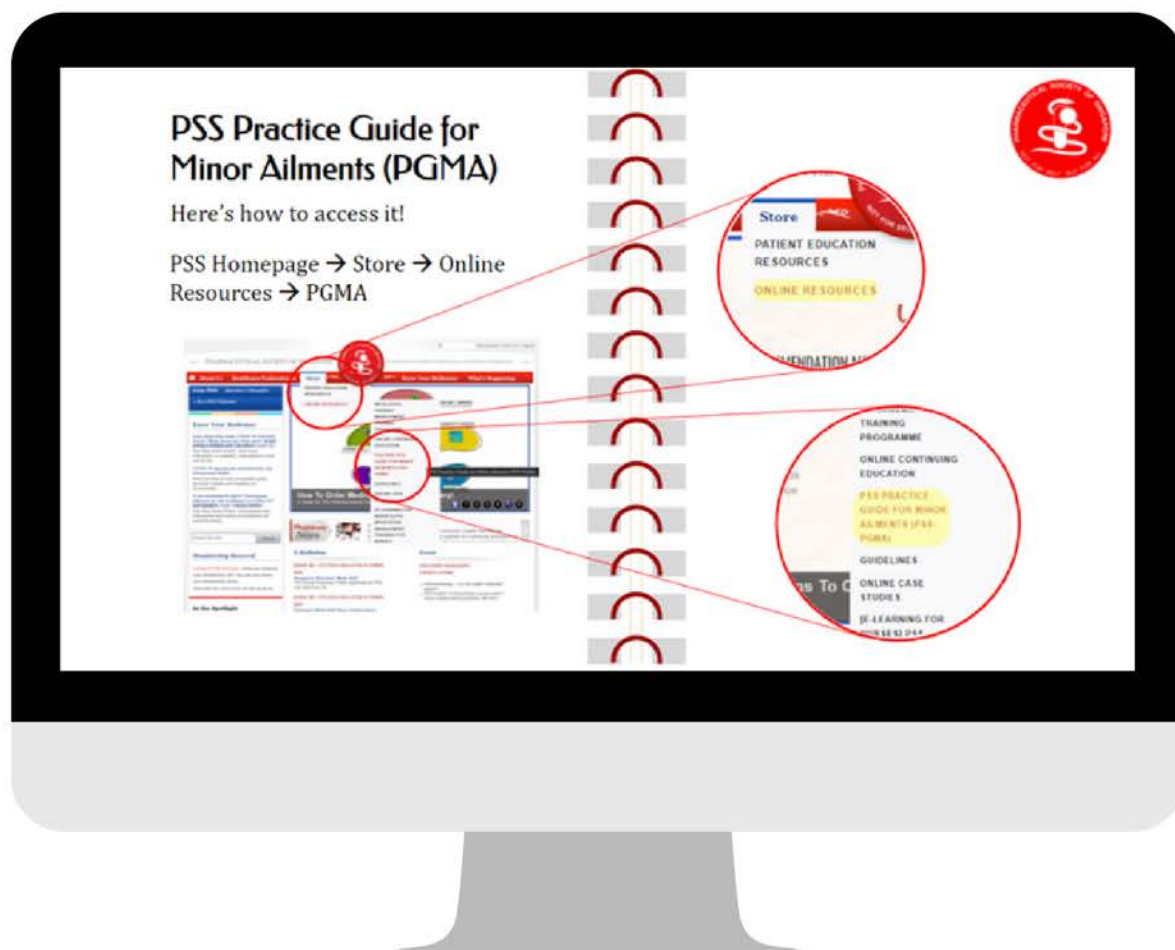

## Staying Clinically Relevant

### Community Chapter

The PSS Practice Guide for Minor Ailments (PGMA) is a compendium of guidelines across 14 frequently encountered minor ailments. The key objective is to standardise practice across institutions and enhance the delivery of pharmaceutical care to patients and consumers in the primary sector. The modules are available on the PSS website and are provided complimentary for all PSS members. Upon completion of each module, 2 CPE points and a certificate of completion will be awarded.

To keep abreast with the latest standards of practice, the PGMA compendium underwent a series of extensive reviews last year. In 2022, the Community Chapter spearheaded the revision of 6 topics, completed the revision cycle, and commissioned the introduction of 3 new topics, such as Foot Care, Oral Health, and Insomnia. Collectively, these serve as a comprehensive and updated guide to clinical practice, with new literature and evidence supporting the models of care.

Members who have completed the previous version of the modules are highly encouraged to revisit these topics to update themselves with the latest standards of practice and earn CPE points. Members can look out for these updates in quarter 1 of 2023.

# Webinar on Soft Skills and Leadership

## Industry Chapter

**Pharmaceutical Society of Singapore (PSS)**  
**Industry Chapter presents:**

## Modelling for Success

When you know better, you can do better!

Speaker: Mr. Desmond Chong

### Who is Mr Desmond Chong?

Desmond is a life and career coach, and co-founder of Peak Resonance. He coaches professionals, who are looking to transition into the next part of their life and career.

As a new generation Coach, Desmond firmly believes in the "Internal Force". He utilizes NLP methodology in coaching, and speaks about how each and everyone can tap on and maximize their "Internal Force" to *thrive*, and not to just survive. Since receiving his NLP certification in 2018, and Desmond has since coached various teams to speak the right language, and motivate them to achieve more.

One of his favourite phrases is: "When you know better, you can do better!"

**DATE:**  
13 Dec 2022 (Tuesday)

**TIME:**  
7.00pm – 7.45pm: Talk  
7.45pm – 8.00pm: Q&A

**REGISTRATION:**

- Free for PSS members
- \$540 for Non-PSS members
- Pre-registration via Zoom is strongly encouraged

**Register via:**

**1 Non-Patient Care CE Point will be awarded**

**Pharmaceutical Society of Singapore (PSS)  
Industry Chapter presents:**

## Communication Works for Those Who Work on It!

### How to gain influence through connection

Speaker: Ms Judy Lim

### Who is Ms Judy Liu?

Ms Judy Liu is the Head of Learning & Development at Hays and a Leadership & Communication Coach. Having commenced her career as a lawyer and subsequently Sales Trainer, she is a believer that influence is as much science as it is art.

Her background in Psychology, Talent Development and Neurolinguistic Programming, together with her passion for meditation is a compilation of her fascination in the workings of the mind and human behaviour.

**DATE:**  
28 June 2022 (Tuesday)

**TIME:**  
7.00pm – 7.40pm: Talk  
7.40pm – 8.00pm: Q & A

**REGISTRATION:**

- Free for PSS members
- \$540 for Non- PSS members
- Pre-registration via Zoom is strongly encouraged

**Register via:**  
<https://usfz.sciencedirect.com/science/article/pii/S0968759922000017>

1 Non-Patient Care CE Point will be awarded

In the latest iteration of the Industry Chapter Team, there were numerous fruitful learning journeys with reputable trainers/coaches, to enhance the soft skills of PSS members. The chapter organized two successful webinars, featuring influential speakers such as Judy Liu, Head of Learning & Development at Hays and Desmond Chong of Peak Resonance, which were attended by more than 100 participants in each webinar.

Resounding positive feedback were received for these sessions. Hence, there are plans to explore the conduct of live workshops that will further hone the soft skills of our PSS members.

# DEVELOPING THE PROFESSION

## Pharmaceutical Society of Singapore (PSS) Hospital Chapter Presents: **Postgraduate Education: Am I Ready?**

Need more information before embarking on further education?

Join us and hear from fellow pharmacists who have pursued postgraduate education on their experiences.

**DATE:**  
26<sup>th</sup> October 2022 (Wednesday)

**TIME:**  
19:00 to 21:00

**VENUE:**  
Zoom Webinar

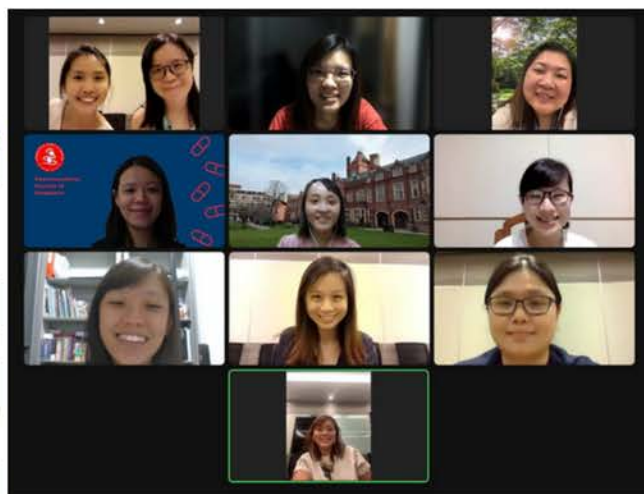

**FOR REGISTRATION, PLEASE  
GO TO (ZOOM):**

20:30 – 21:00	Panel discussion/Q & A session	

## Postgraduate Forum Hospital Chapter

Hospital Chapter organised the Postgraduate Education Forum in October 2022, which aimed to raise awareness and inspire fellow pharmacists, both the young and the experienced, to advance their professional and career development.

Amongst the distinguished guest speakers were Associate Professor Christine Teng and Dr Chew Yue Xin Cindy, who shared about the National University of Singapore (NUS)'s Doctor of Pharmacy (PharmD) and part-time PharmD programme respectively. Other speakers included Ms Lim Kae Shin, Principal Pharmacist, KK Women's and Children's Hospital who shared her experiences in the Masters of Healthcare Technology Assessment, Ms Wee Hui Ling, Senior Pharmacist (Clinical), Tan Tock Seng Hospital, who provided a glimpse on the Masters in Clinical Pharmacy (Belfast) and Ms Ng Wan Xin Yvonne, Assistant Manager, MOH Office for Healthcare Transformation, who discussed on her journey in the Masters in Public Health Programme. This online webinar and its interesting topics initiated fruitful exchanges of insights amongst the 142 participants.

Encouraged by the positive response to the forum, plans for future runs of the forum is being made, where topics like residency programmes, Masters of Health Administration and specialty programmes such as for paediatrics, geriatrics, oncology, obstetrics and gynaecology were being considered.

# Learning from Our Allied Health

## Hospital Chapter

As a continuation of Hospital Chapter's continuing education (CE) series on "Learning from our Allied Health", Principal Physiotherapist Ms Swapna Tony from Tan Tock Seng Hospital (TTSH) was invited to share about the role of physiotherapy in cardiac rehabilitation. This CE conducted in January attracted a total of 141 attendees on Zoom. In 2023, Hospital Chapter will continue to bring to the platform other Allied Health Professionals to share more multidisciplinary management strategies for the holistic care of our patients.

**DATE:**  
25<sup>th</sup> January 2022 (Tuesday)

**TIME:**  
19:00 to 19:30 – Talk  
19:30 to 19:45 – Q&A

**SPEAKER:**  
Ms Swapna Tony  
Principal Physiotherapist  
TTSH

**FOR REGISTRATION, PLS GO TO (ZOOM):**

Pre-registration via Zoom is  
strongly encouraged

Pharmaceutical Society of Singapore (PSS)  
Hospital Chapter Presents:

**“Learning from Our Allied Health” series: Physiotherapist**  
*Physiotherapy to complement management in cardiac rehabilitation*

Cardiac rehabilitation by physiotherapists usually encompasses three components – exercise training, education and counselling. Each patient is prescribed an individualised exercise programme, and taught how to monitor and progress their exercises safely. Therefore, cardiac rehabilitation helps patients adopt lifelong healthy habits for the heart by empowering them with relevant knowledge and practical tips to maintain a sustainable lifestyle. This will help them reintegrate into the community and regain their quality of life after a cardiac event.

**Learning Objectives:**

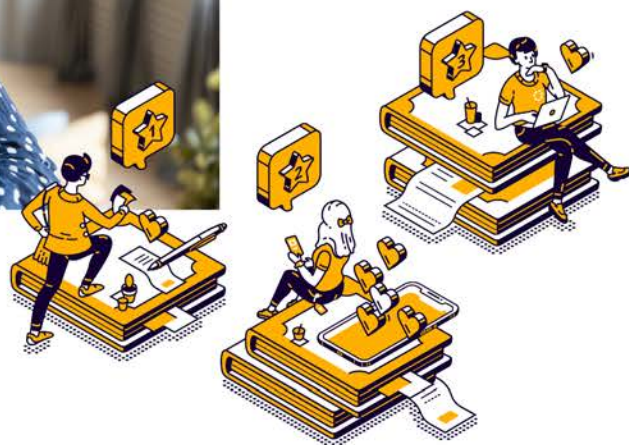

1. Understand the role of exercise in the management of Coronary Artery Disease and its risk factors
2. Understand the basic principles of exercise prescription in Cardiac Rehabilitation
3. Share potential of gamification and technology-enabled Cardiac Rehabilitation via Heart Track

### Who is Ms Swapna Tony?

Ms Swapna Tony is a Principal Physiotherapist at Tan Tock Seng Hospital with more than 15 years of clinical experience in the area of cardiac rehabilitation. As the head of the Cardiopulmonary outpatient team, she actively seeks to improve the care of patients with heart diseases. Together with the cardiology team, she has transformed the cardiac rehabilitation service from a single-modal to a multi-modal treatment. She has also worked with patients to introduce a one-stop service for post-coronary event care. With the aforesaid, patients with heart diseases have since received improved timely and cost-effective care. In the recent years, she has also introduced and co-driven a new model of cardiac rehab for high-risk heart failure patients to improve their effort tolerance and quality of life. Additionally, she has been invited to share her wealth of knowledge at various workshops and conferences. She has also organised a variety of health promotion events to increase the awareness of exercise in the prevention of cardiovascular diseases.

**1 PATIENT CARE CE POINT WILL BE AWARDED**

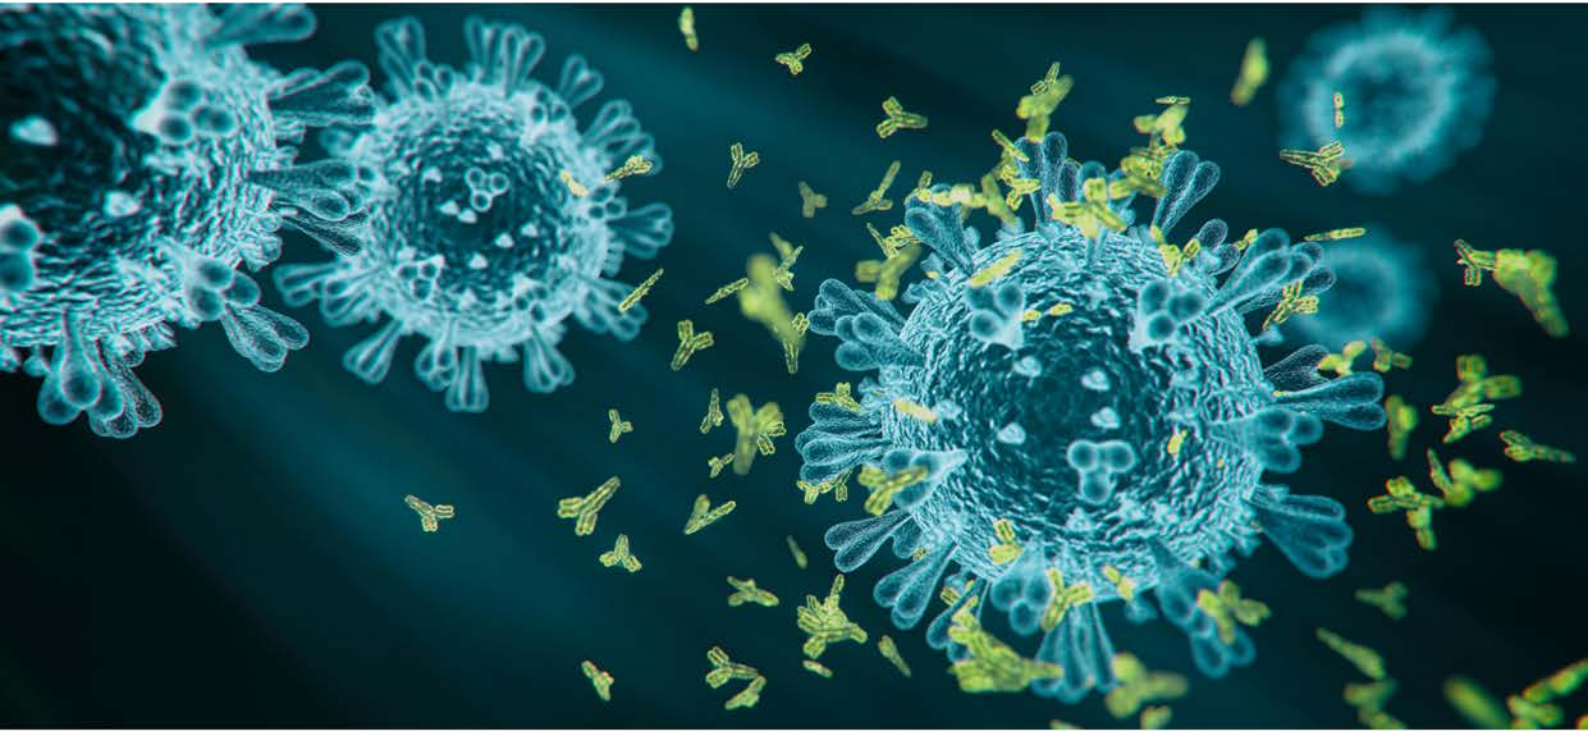

# Continuing Pharmacy Education

## Professional Chapter

As part of the Professional Education Chapter's mission to organise comprehensive Continuing Pharmacy Education and training programmes for Pharmacists in Singapore, a total of 10 pharmacist-lead Continuing Education talks on a diverse range of topics were organised in FY22, epilepsy in children, ADHD in children and adolescents, SLE, asthma in Covid-10 endemic world, critical care, HFpEF, role of pharmacist in Healthier SG, ethics in pharmacy and social prescribing.

Similar to 2021, the CE talks continued to be held virtually and were well-received by members citing the convenience of attending the CEs on the go without having to run to the venue of the CEs.

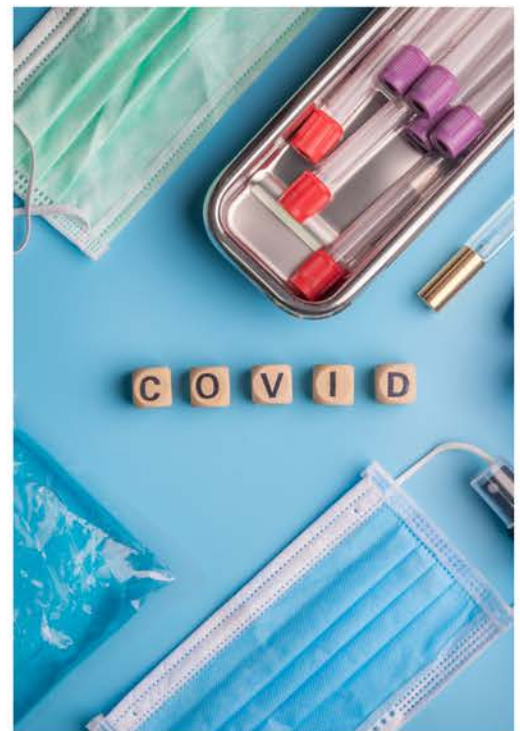

# CPE Session: Updates on oral antiviral use for management of COVID-19

Infectious Disease Special Interest Group (IDSIG)

In collaboration with the Hospital chapter, IDSIG organised a CPE session which provided updates on the use of oral antivirals for the management of COVID-19. With the rolling out of oral antiviral therapy in the community setting, this session provided participants with an overview of the pharmacotherapy for COVID-19 and also discussed the considerations regarding its use for the management of COVID-19.

The talk was presented by the speaker, Ms Law Hwa Lin, the Unit Head of NCID Pharmacy and was attended by 311 pharmacists on the ZOOM platform.

# Roadmap for Providing Vaccination Services in the Community Settings

Community Chapter

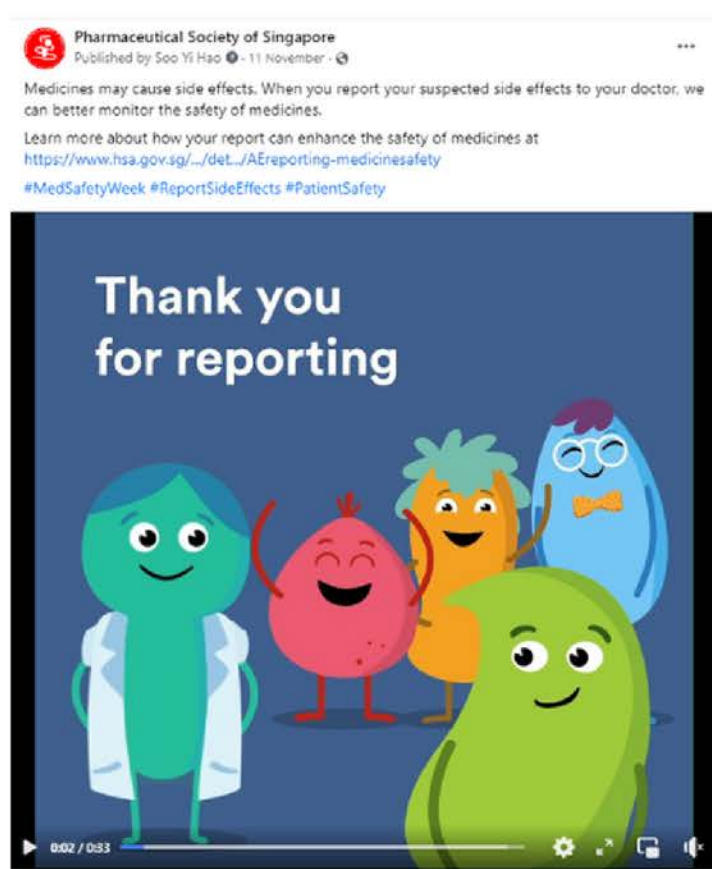

The Community Chapter had the privilege of collaborating closely with the Ministry of Health, Chief Pharmacist's Office (CPO) in the development of Standard Operating Procedures (SOPs) for the Community Vaccination Programme sandbox. As subject matter experts, the Chapter contributed to the drafting of end-to-end process map and comprehensive guidance on the proper controls for the provision of effective and safe vaccinations in the community setting, such as retail pharmacies.

These SOPs provide detailed references for the vaccination processes, such as the receiving, storage, and handling of vaccines, screening of patients, preparation, and administration of vaccination, and adverse drug reactions and anaphylaxis management. Therefore, they will lay the foundations for enabling a more seamless launch of the programme in the future.

## COLLABORATING WITH PARTNERS

## Collaborating with HSA in MedSafety Week

### Public Education Chapter

The PSS Public Education Chapter supported the Health Science Authority's (HSA) and participated in this year's MedSafetyWeek, an international annual campaign organised by Uppsala Monitoring Centre of World Health Organization. From 7 to 13 November, the PSS Public Education Chapter has supported HSA in the MedSafetyWeek by publicising 2 animation clips to promote the intended messages on our social media platform.

This annual campaign aims to encourage reporting of side effects and increase awareness of national pharmacovigilance systems. The theme of 2022 was "How patients and healthcare professionals make safety work" and promotes the importance role of reporting suspected side effects in identifying emerging safety issues and prompting protective actions.

## YPC Sandbox

### Young Pharmacists Chapter (YPC)

The YPC Sandbox was launched nationwide in 2022 to encourage innovation and collaboration in pharmacy. It provided a platform where pharmacists can express and realise innovative ideas, with provision of resources and network with relevant expertise by PSS to pilot the projects. The committee explored how the pharmacy community can bring about sustainable development in terms of, but not limited to, environment, economic and social aspects through the theme 'Sustainable Pharmacy in Singapore'. The inaugural competition was awarded to the "Green Doctors Programme" which aims to create a sustainable ecosystem for recycling medication blister packaging, with a vision to minimise the environmental impact of pharmaceutical activities.

NUS students come up with recycling method for medicine strips

Ms. Su Yee Shuen (left) and Ms. Sophia Deng Ning for holding medical blister packaging and recovered aluminium and plastic polymer pieces.

**Green Doctors Programme**

Come join us in our quest to recycle packaging and build a more sustainable world for everyone!

GDP consists of a group of NUS students who are passionate about the environment. Since we started in September 2021, our team has developed a solution for recycling blister packaging in collaboration with the National University Hospital (NUH). In April 2022, the team was awarded a grant from Pharmaceutical Society of Singapore (PSS) after emerging as the winning team in the inaugural Sandbox Project by the PSS Young Pharmacists Chapter.

**Here at GDP, we**

- RECYCLE medical blister packaging using chemicals
- Promote a CIRCULAR ECONOMY for aluminium & plastic waste
- Help hospitals & clinics to REDUCE packaging waste

It's about the shared passion & growth as a team.

Follow us!

The team comprises chemical, environmental and mechanical engineering students, and are now in the process of developing a technology to process and recycle medication blisters. the winning team was awarded a \$2000 grant for the research and project development and presented their project and upcoming developments. at the 31st Singapore Pharmacy Congress. The project was also featured by the Straits Times.

Moving forward, the committee will continue to promote the theme of sustainability in pharmacy and upcoming project recruitment and talks will take place in early 2023.

YPC Sandbox 2.0 Promotion Poster

## YPCConnect

### Young Pharmacists Chapter (YPC)

YPCConnect is an initiative to foster stronger cooperative ties between PSS and the NUS Pharmaceutical Society (NUSPS). First introduced in 2020, YPCConnect aims to engage pharmacy students in more PSS-organized events and vice versa, as well as for young pharmacists to share their experience with aspiring pharmacy students to have an insider view of a pharmacist's or pharmacy graduate's day-to-day work.

As of 2022, YPCConnect has completed its second run with a total of 15 pharmacists and 23 pharmacy students. Each run features introductory sessions for the pharmacist befrienders and students to get to know one another. The students then select whom they prefer to be partnered with, and the pharmacist befrienders are then matched to the students based on the students' interests. Subsequent interactions are kept free and easy, and last for at least 1 year.

**"YPC-Connect was more than a mentorship programme. It was a year-long journey with inspiring content, reflective conversations, and heart-warming events. My mentor introduced me to different perspectives of the healthcare landscape and broadened my horizons of the impact a pharmacist may have. She also value-added our meetings by providing reflections of her experiences and lessons both in school and the working world. Thanks to this programme, I have made significant progress in building my leadership qualities and aspirations."**

Jerald, Year 3 Pharmacy Student

Moving forward in 2023, YPCConnect aims to conduct mass engagement sessions for more meaningful networking and interactive sessions for both pharmacists and pharmacy students. The committee will be working with NUSPS Committee for the planning and execution of the event.

*Meet-up between PSS YPC and Industry Chapter as well as, Indonesian Pharmacists*

## Hosting International Friends

### Young Pharmacists Chapter (YPC)

On 29 August 2022, YPC along with Industry Chapter, had the privilege of hosting 3 Indonesian registered pharmacists with diverse backgrounds in clinical practice, academia and a non-pharmacy sector. Chapter members who attended were from the hospitals, community and industry.

We gathered over local food fare at Wisma Atria in Orchard and shared experiences and perspectives on current roles in pharmaceutical industry and clinical setting. This was the first in-person meeting since the COVID-19 pandemic, and it was a heartening opportunity to reconnect and renew ties!

## Improving Social Media Outreach

### Media and Communications Committee

MCC conducts social media outreach in tandem with the bimonthly bulletin. The team, led by Social Media Lead, Mr Yeo Xiang Hao Kelvin, manages the PSS Instagram and Facebook page, further publicizing the content from the bulletin on these channels. This led to more inbound traffic to our website, where the bulletin is viewed, and thus more attention for PSS initiatives. In addition, it helps to position PSS as an organization that represents the pharmacy profession in Singapore.

As of end Jan 2023, we currently have 669 followers on Instagram, +13.2% increase vs LY, and 2700 followers on Facebook, +6.1% vs LY. Each of our posts attracts a combined average of 2000 eyeballs on both Instagram and Facebook

In October 2021, the MCC social media team created the PSS LinkedIn Page to push our content out to more professionals. Although only created 3 months ago, the page has garnered 964 followers, +354.7% vs LY, and posts attained an average of 800 organic views.

# Faces of PSS in E-Bulletin

## Media and Communications Committee

The PSS E-bulletin bi-monthly publication is released to members through email. MCC uses this publication as platform to increase awareness among pharmacists about the organization's activities, accomplishments of its members, and relevant news.

In 2022, MCC also started a new interview segment, Faces of PSS, which aims to introduce members who have been silently contributing to the society. By exploring the motivations of these individuals, MCC aims to generate interest among PSS members to play a more active role in the Society and in advancing our vision and mission.

# Leaders in Pharmacy

## Industry Chapter

The Industry Chapter Team embarked on fruitful learning journeys with some of the most established industry leaders on three separate occasions for Industry Insider, a feature in PSS e-Bulletin. These leaders include Ms Christina Lim Seow Ling, founder of Ocean Health and TDF (Therapeutic Dermatologic Formula), Mr. Png Yong Koh, founder of PharmacistCoaches.com, Ms. Michelle Cheng, a regional RA Head at Abbvie, and Ms. Chen Yeeju, Managing Director and Business Development at PharmEng Technology.

# In the Spotlight

## Hospital Chapter

To recognize pharmacists who are role models in their area of practice, Hospital Chapter regularly showcased outstanding hospital pharmacists as part of our "In the Spotlight" series. The aim of this series is to allow these outstanding pharmacists to share their valuable experience, achievements and advice with our aspiring pharmacists, inspiring them to achieve greater heights in their own careers.

We featured Mr Pang How Tze, an Information Technology (I.T.) Pharmacist from Sengkang General Hospital (SKH) and Ms Deborah Chia Miao Hui, Senior Clinical Pharmacist in National University Hospital (NUH) in the February and June issues respectively.

**Ms Deborah Chia Miao Hui**  
Senior Clinical Pharmacist

**Mr Pang How Tze**  
Information Technology (I.T.) Pharmacist  
Sengkang General Hospital (SKH)

# Shining Star

## Community Chapter

Shining Star is a PSS initiative that features individuals who embody the exceptional qualities of a community Pharmacist.

This year featured pharmacists include: Ms Tan Yin Yin from Guardian Pharmacy, Mr Colin Tang Wei Qiang from Watsons Pharmacy, Ms Huang Yu Fang from SingHealth Polyclinic, and Ms. Lim Cinny from Unity Pharmacy!

# Invitation to Speak at 2022 ACCP Global Conference on Clinical Pharmacy

**Dr Vivianne Shih**

*Pharmacists from Hong Kong SAR, Malta, Philippines, Portugal, Singapore, Taiwan, Thailand and the United States of America*

The 2022 ACCP Global Conference on Clinical Pharmacy was held from Oct 15 through 18 at the Hilton San Francisco Union Square, USA. This was a physical conference that was much awaited after 3 years. I was humbled to be given the opportunity to represent Singapore to speak at this international conference, my first in the capacity as President, 116th Council PSS.

I spoke on the “Digital Transformation of Clinical Pharmacy Services in Singapore” in the symposium track “Advances in Clinical Pharmacy Practice Around the World”. This track was crafted to provide conference delegates with updates on the status of clinical pharmacy practice and practice innovations in the Middle East (UAE) and Asia. There were 2 other speakers namely Assoc Prof Bassam Atallah who spoke on the clinical pharmacy practice at Cleveland Clinic in Abu Dhabi and Assoc Prof Lin Shu-Wen who spoke on the monitoring of antifungal therapy in Taiwan. The session was moderated by Prof Jerry L Bauman, Dean Emeritus and Distinguished Professor Emeritus, University of Illinois at Chicago College of Pharmacy, Chicago, Illinois. The conference provided an excellent platform for us to share how clinical pharmacy practice had progressed and training required for the provision of the clinical pharmacy services in our respective countries. There were also 3 additional symposium tracks added in view that this was a global ACCP conference: (1) Clinical Pharmacy Education and Training: Global Perspectives, (2) Global Community Clinical Pharmacy Practice and (3) Global Clinical Pharmacy Innovations.

At the conference, there was a separate international delegate reception held where pharmacists could relax, network and explore potential collaborations to advance clinical pharmacy practice.

For pharmacists who wish to connect with focused groups of clinical pharmacists to enhance professional support and collaboration, they could attend the numerous ACCP Practice and Research Networks (PRNs) events held during the conference.

This was a fulfilling conference. Besides being updated on the latest in pharmacotherapy, it was also nourishing for the heart – to be able to meet like-minded passionate pharmacists from around the world and to establish long-lasting friendships and network.

*From Left to Right: Dr Vivianne Shih, Prof Jerry L Bauman, Assoc Prof Lin Shu-Wen, Assoc Prof Bassam Atallah, Prof Alan Lau (Professor and Director, International Clinical Pharmacy Education, University of Illinois Chicago College of Pharmacy, Chicago, Illinois, USA)*

## Bali Pharmacy Festival 2022

Mr Roman Lester Rosales represented PSS at the Bali Pharmacy Festival 2022 held on 23rd September. He was one of the foreign speakers invited to speak at the seminar portion of the event held at The Stones Hotel in Bali, Indonesia. Bali Pharmacy Festival is an event organized by the Ikatan Apoteker Indonesia (IAI) Pengurus Daerah Bali, which is a regional chapter of the Indonesian Pharmacists Association. This year, the theme was 'Smart Pharmacist and Leadership in Digitalisation'. The seminar was attended by more than 300 participants.

During the seminar, Mr Rosales spoke about 'Digitalisation & Leadership in the Community Pharmacy: A Singapore Perspective', sharing on the various digitalization efforts in community pharmacy practice in Singapore and how pharmacy leadership plays a vital role in initiating, managing and sustaining such efforts. The session was shared with another speaker from the International Pharmaceutical Federation (FIP), Mr Redwan Hossain, who joined virtually from Bangladesh, and was attended by around 60 participants. The attendees, who were mostly hospital and community pharmacists based in Bali, were especially keen on the digitalisation efforts in integrating patient medical records (e.g. NEHR), access to own health records via HealthHub, Telepharmacy, Teleconsultation and Telemedicine. During the Q&A, some of them also shared on the challenges faced in the roll out and adoption of similar efforts in Bali, especially among the elderly and those who are not connected digitally.

# PSS Annual Awards and National Day Award Winners

The Prestigious PSS annual awards are conferred to outstanding pharmacists who have excelled in their field of practice. These awards aim to inspire fellow pharmacists to strive for excellence, and together achieve greater heights for the pharmacy profession.

The National Day Awards are presented to individuals who have dedicated their service to the betterment of Singapore. We warmly congratulate our PSS members who were awarded these prestigious awards, on being recognised for their efforts in nation-building.

Heartiest Congratulations to all winners!

## National Day Awards Winners

Scientific Research Award

## Appreciation for Representing PSS

PSS would like to thank Ms Agnes Lee for serving as PSS's representative on the Advertising Standards Authority of Singapore (ASAS) Council and ASAS Health & Wellness Sub-Committee for the past 10 years.

In her capacity as Council member, Agnes would be consulted for advertisements from industries such as Beauty & Cosmetics, Nutrition, Retail, Telco and others that ASAS receives complaints from. Misleading claims are then screened against the current Singapore Code of Advertising Practice (SCAP) guidelines.

We are proud of her selfless contribution to ASAS, representing the pharmacy profession & PSS, in line with our mission to "maximise the contribution of pharmacists to the healthcare of Singaporeans".

*We  
thank  
you!*

# Updates from PSS Secretariat

In 2022, PSS welcomed Ms Mitra Rosayro and Ms Wendy Koh into PSS Secretariat office. PSS also bid farewell to Ms Jessin Ching and Ms Tiffany Yong, both of who had served the office since 2015.

Holding a role of a membership executive in a private and recreational club for more than 6 years, Mitra is no stranger to membership engagement and she looks forward to contributing her skillset to build on PSS's administrative foundation.

Wendy also brought in her administrative experience from the not-for-profit societies she had worked with. With her experience in customer service, Wendy is well placed to front engagements with both PSS members and the public, on behalf of PSS.

The new team, led by the Assistant Manager, Ms May Siau, will strive towards the provision of timely and effective support to our Council and PSS members.

**Ms. May Siau**

**Ms. Wendy Koh**

**Ms. Mitra Rosayro**

## 31st Singapore Pharmacy Congress 2022

**Chairperson:**  
Mr Puah Yong Kin

**Members:**  
Ms Poh Kar Men  
Mr Ian Tan  
Mr Tan Wei Xun

### Sponsorship Committee

**Chairperson:**  
Ms Bernice Leow Li Hsia

**Members:**  
Mr Timothy Choo  
Ms Trevina Lee Jia Xuan  
Mr Yeo Xiang Hao Kelvin

## Community Chapter

**Ex-officio:**  
Ms Kng Li Lin Grace  
Mr Ng Boon Kiang Ivan

**Chairperson:**  
Ms Lee Chiawli

**Vice-Chairperson:**  
Mr Colin Tang Wei Qiang

**Secretary**  
Ms Wang Hui

**Members:**  
Ms Chan Li Min Carolyn  
M Grace Chew Wei Zhi  
Ms Chong Boon Ka Joy  
Ms Fathinah Binte Mohamed Jaffar  
Mr Jang Yu Joon  
Ms Lee Soo Fen  
Ms Lim Cinny  
Mr Nyiau Wen Jun  
Mr Ian Tan Sheng Feng  
Mr Wong Chee Peng, Ryan

## Hospital Chapter

**Ex-officio:**  
Ms Lim Hong Yee  
Ms Lim Kae Shin

**Chairperson:**  
Ms Ong Wai Ming Mendy

**Vice-Chairperson:**  
Ms Mak Ying Hui

**Secretary:**  
Ms Tsai Yi Chen

**Members:**  
Ms Ang Bee Hwee  
Dr Fabian Aw Wei Long  
Ms Boon Choon Pei  
Ms Cheryl Chin Qian Ni  
Mr Henry William  
Ms Stefanie Lee Huiping  
Dr Leticia Peh Xyn Yen  
Ms Lu Lu Htet  
Ms Tan Sock Hoon  
Mr Toh Huang En  
Ms Yap Min Yi

## Industry Chapter

**Ex-officio:**  
Mr Wang Kaiye

**Chairperson:**  
Mr Kevin Ben Laurence

**Vice-Chairperson:**  
Mr Lim Yong Quan

**Secretary:**  
Ms Bernice Leow Li Hsia

**Members:**  
Mr Timothy Choo Chien Ee  
Ms Erinn Lee Si Min  
Ms Trevina Lee Li Xuan  
Mr Low Jia Hao  
Ms Yeo Shu Rong

## Infectious Disease Special Interest Group (IDSIG)

**Ex-officio:**  
Ms Lim Hong Yee  
Ms Lim Kae Shin

**Chairperson:**  
Dr Narendran S/O Koomanan

**Co-Chairperson:**  
Dr Ashley Lim Shiyuan

**Secretary:**  
Dr Pu Yuxi

**Members:**  
Ms Hoo Si Ru Grace  
Dr Lee Wee Boon  
Ms Lim Jia Hui  
Mr Soo Yi Hao  
Ms Tan Sock Hoon  
Ms Tay Hui Lin  
Ms Wu Jia En

## Media and Communications Committee

### Ex-officio:

Dr Vivianne Shih  
Mr Wang Kaiye

### Chairperson:

Ms Vernadine Goh Jia Lu

### Vice-Chairperson:

Ms Lai Wan Lin Angeline

### Members:

Ms Chia Hue Kian  
Mr De Silva Justin Ignatious  
Ms Juliati  
Ms Kng Li Lin Grace  
Ms Lee Dongyun  
Mr Lee Rong En Shawn  
Ms Lim Cinny  
Mr Ng Boon Khiang Ivan  
Mr Joshua Peh Yong Kiat  
Mr Yeo Xiang Hao Kelvin  
Mr Yeo Shao Jie

## National Medication Information (NMI) Workgroup

### Ex-officio:

Dr Yap Kai Zhen

### Chairperson:

Ms Lim Woan Chyi

### Co-Chairperson:

Ms Lim Kae Shin

### Members:

Mr Chee Kok Seng  
Mr Chin Wai Foo  
Ms Noelle Eng  
Ms Goh Sok Hiang  
Ms Heng Zi-Hui Cheryl  
Ms Esther Huang  
Ms Huang Xiaoling  
Ms Kng Li Lin Grace  
Ms Candace Lee  
Ms Erinn Lee Si Min  
Mr Ng Boon Khiang Ivan  
Mr Vincent See  
Mr Soo Yi Hao  
Ms Wi Xin Yi  
Ms Xiong Shu Juan  
Ms Xu Jialun Sandra

## Professional Education Chapter

### Ex-officio:

Dr Lee Wee Boon

### Chairperson:

Ms Loh Chee Pheng

### Secretary:

Ms Amanda Chia Jia Ying

### Members:

Dr Cindy Chew Yue Xin  
Ms Kng Li Lin Grace  
Ms Denise Lim  
Mr Desmond Seah Teik Ming  
Mr Nicholas Teo Shao Wei  
Mr Wang Hao Yu

## Pharmacy Week 2022

### Ex-officio:

Ms Yong Pei Chean

### Co-Chairpersons:

Ms Carolyn Chan Li Min  
Ms Yeo Mei Ching Sharon

### Logistics Co-Leads:

Mr Joshua Low  
Mr Desmond Teo

### Programmes Co-Leads:

Ms Toh Jia Hui  
Ms Yo Eri Tiffany

### Publicity Team Co-Leads:

Mr Yeo Shao Jie  
Mr Long Zhaorong

### Sponsorships & Partnerships Co-Leads:

Mr Jordan Png  
Ms Mya Teo Shu Mei

### Technology Team Co-Leads:

Ms Aurora Chan  
Mr Vernon Tay

### Logistics Committee Members:

Mr Cheong Han Ren Edwin  
Ms Tan Wen Hian Johannah

### Programmes Committee Members:

Ms Lee Shwu Chin  
Ms Lu Lu Htet  
Mr Myat Thu Kyaw  
Ms Nur Nabihah Binte Zailani  
Mr Oun Yin Hong, Glean

### Publicity Committee Members:

Ms Lee Jia Ying  
Ms Regine Tan  
Ms Wang Hanlu Hailey

### Sponsorships & Partnerships Committee Member:

Mr Tan Kang Wei Alden

### Technology Team Members:

Mr Roy Khoo Chee Chuen  
Mr Lim Wai Kit  
Mr Lim Zhihao

### Co-Event Photographer:

Mr Calvin Chan

### Media Liaison

Ms Lim Cinny

## Public Education Chapter

### Ex-officio:

Dr Yap Kai Zhen

### Chairperson:

Mr Soo Yi Hao

### Secretary:

Ms Chan Jue Ning Sarah

### Members:

Ms Chuang Xue Fen  
Ms Erinn Lee Si Min  
Dr Peia Lee  
Ms Lee Ying Zhen Candace  
Dr Pu Yuxi  
Mr Tan Zhan Peng  
Dr Wang Zhizhen Golda

## Young Pharmacists Chapter

**Ex-officio:**

Mr Ong Kheng Yong

**Chairperson:**

Ms Vivian Chin Hui Min

**Vice- Chairperson:**

Mr Ian Tan Sheng Feng

**Secretary:**

Mr Chong Jin Jian

**Members:**

Ms Chan Li Ying

Mr Benjamin Cheng

Mr Franky

Ms Lee Chiawli

Ms Trevina Lee Jia Xuan

Ms Bernice Leow Li Hsia

Mr Ray Lew

Mr Lim Cheong Cheng

Mr Liu Mao Sheng Marshall

Ms Tey Xi Wei

## Pre-Registration Pharmacists' Training Committee

**Ex-officio:**

Dr Lee Wee Boon

**Chairperson:**

Ms Michelle Tan (NUH)

**Vice-Chairperson:**

Mr Kwok Fai Chiang (Parkway)

**Members (Institutional Reps):**

Ms Daphne Chan (AH)

Ms Lee Pei Ying (AH)

Mr Lim Wee Heng (CGH)

Mr Bruce Wong Yiung Juan (CGH)

Ms Esther Huang (Guardian)

Ms Soh Jia Shing (Guardian)

Ms Amy Leo Wen Ling (IMH)

Mr Ng Boon Tat (IMH)

Ms Rena Limwipuwat (IMH)

Dr Dennis Chua (JHS)

Mr Joel Chiang (JHS)

Ms Goh Zhining (JHS)

Ms Lee Siok Ying (KTPH)

Ms Stephenie Lim Sheue Fen (KTPH)

Dr Amanda Lee (KKH)

Ms Shirley Ng (KKH)

**Members (Institutional Reps):**

Mr Ricky Ang (NCCS)

Mr Vincent Ngo Kang Hao (NCCS)

Mr Kelly Chng (NHCS)

Ms Lim Li Ching (NHG Pharmacy)

Dr Melissa Ngai (NUH)

Ms Michelle Tan (NUH)

Ms Wong Zhi Xin (NUH)

Mr Aaron Yap Jun Yi (NUH)

Mr Chiang Kwok Fai (Parkway)

Mr Andrew Lum Yew Wai (Raffles)

Mr Ong Geck Keng (Raffles)

Ms Petrina Fan Yuen Wai (SGH)

Ms Rachel Gan Ee Ling (SGH)

Ms Justina Ma (SGH)

Ms Melissa Faye Wu (SGH)

Ms Clara Lin Yihong (SKH)

Mr Yew Koon Wei (SKH)

Ms Jenny Oo (St Luke)

Mr Wong Yoke Cheng (St Luke)

Ms Jessalyn Chan (TTSH)

Ms Law Hwa Lin (TTSH)

Ms Chuang Xue Fen (Unity)

Mr Edwin Lee (Unity)

Mr Ng Boon Kiang Ivan (Unity)

Ms Tan Swee Chin (Unity)

Ms Lim Shunwei (Watsons)

### Mission Statements (Chapters, Committees and Workgroups)

<b>Community Chapter</b>	<ol style="list-style-type: none"> <li>1. To establish the professional practice of community pharmacists.</li> <li>2. To improve health outcomes for patients by increasing access to preventive care by community pharmacist in the management of minor ailments, as well as chronic conditions.</li> <li>3. To enhance and promote the role of community pharmacists as the trusted and accessible healthcare professional of choice, fostering collaborative care to promote health.</li> </ol>
<b>Hospital Chapter</b>	<ol style="list-style-type: none"> <li>1. To serve in the best interests of hospital pharmacists.</li> <li>2. To build rapport among hospital pharmacists through networking and other activities.</li> <li>3. To initiate and maintain special interest groups that serve as a platform where hospital pharmacists can interact and grow professionally.</li> </ol>
<b>Industry Chapter</b>	To empower members with knowledge, skills and network to create a sense of belonging.
<b>Infectious Disease Special Interest Group (IDSIG)</b>	<ol style="list-style-type: none"> <li>1. To network, exchange ideas, and discuss relevant issues pertaining to ID.</li> <li>2. To organise educational opportunities to further the knowledge of the practicing pharmacists.</li> <li>3. To recommend pertinent activities to PSS.</li> </ol>
<b>Media and Communications Committee</b>	To build PSS's image as a provider of trusted source of current, relevant and accurate medication related information, and position PSS as the society which brings the best out of the profession.
<b>National Medication Information (NMI) Workgroup</b>	<ol style="list-style-type: none"> <li>1. To achieve 1-drug 1-medication information leaflet (MIL) to harmonise medication information across the nation.</li> <li>2. To optimize pharmacist efforts in the curation of new education materials and to have one source of medication information.</li> </ol>
<b>Pre-Registration Pharmacists' Training Committee</b>	To support pre-registration pharmacists' training, and promote pharmacy values, principles and ethnics to build impetuses, in every pre-registration pharmacist.
<b>Professional Education Chapter</b>	<ol style="list-style-type: none"> <li>1. To provide comprehensive Continuing Education (CE) programmes for pharmacists from all sectors.</li> <li>2. To organise relevant courses and accreditation programmes for Pharmacy professionals.</li> </ol>

### Mission Statements (Chapters, Committees and Workgroups)

<b>Public Education Chapter</b>	<ol style="list-style-type: none"><li>1. To empower members of the public with appropriate information for safe and effective use of medicines for management and prevention of diseases.</li><li>2. To establish pharmacists' role in public health literacy and patient activation for improving well-being, identification of ill health, disease management and prevention.</li></ol>
<b>Young Pharmacists Chapter</b>	<ol style="list-style-type: none"><li>1. To empower young pharmacists from various disciplines of the profession.</li><li>2. To harness and translate the zest, drive and interests among young pharmacists into an influential voice.</li><li>3. To form and develop an able Young Pharmacists group that can represent Singapore/PSS at a regional and international level.</li><li>4. To engage pharmacy students and foster stronger cooperative ties between PSS and NUSPS.</li></ol>
