

Interlacing Health: Weaving the Future of Pharmacy

Date: 5–6 October 2024

Venue: Grand Copthorne Waterfront Hotel, Singapore

We are excited to announce that the 33rd Singapore Pharmacy Congress 2024 will take place on the **5th & 6th of October** at the **Grand Copthorne Waterfront Hotel, Singapore**.

Confronted with a global shift towards super-ageing societies, there is an impending rise in healthcare burden and associated costs. The theme for this year, **'Interlacing Health: Weaving the Future of Pharmacy'**, emphasises the diverse roles of pharmacists in synergistically weaving transdisciplinary partnerships with healthcare professionals, as well as the community, through the use of innovative digital health systems and services to deliver personalised and value-based care, adeptly supporting the unique healthcare needs of super-ageing societies.

SPC 2024 is proud to feature scientific keynote sessions and plenary lectures by renowned field experts, as well as symposia, break-out sessions, workshops, oral and poster presentations, commercial exhibitions, and a social event. With four unique tracks, SPC 2024 hopes to intricately weave the fabric of tomorrow's health today!

TRACK A: Achieving value-based healthcare and health

Current healthcare challenges in super-ageing societies; innovative care models, solutions, and potential partnerships

TRACK B: Interlacing health through digitisation and technology

Technological advancements and strategies to effectively integrate technology into healthcare practices

TRACK C: Pushing frontiers in practice, therapy, and science

Latest developments and controversies in pharmacy practice, therapy, and science, shared by a panel of expert practitioners

TRACK D: Igniting and developing our enterprise for health

Insights from industry leaders on building effective workforces to meet upcoming challenges in healthcare and health

Members of the pharmacy community will be invited to submit an abstract for the oral or poster presentation under the following categories:

1. Clinical Pharmacy and Pharmacy Practice
2. Health Services Research
3. Pharmacy Education
4. Pharmaceutical Sciences, Industrial Practices, and Regulatory Affairs

Stay tuned for the announcement of abstract submission details and categories. We look forward to seeing you at the Singapore Pharmacy Congress 2024!
