

SENIOR / PHARMACIST (ONCOLOGY/HAEMATO-ONCOLOGY)

We are looking for an enthusiastic and self-motivated pharmacist to join our dynamic team in providing a comprehensive service to our oncology/haemato-oncology patients.

The interested candidate will be given supervised in-house competency training and accreditation in the outpatient setting.

The key responsibilities are:

- Verification and screening of prescriptions of systemic anticancer therapies (e.g. chemotherapy, immunotherapy)
- Medicines reconciliation and clinical counselling to patients
- Provision of drug information to patients, nursing, pharmacy and other healthcare professionals
- Provision of advice and support to doctors whilst ensuring the safe, appropriate and cost-effective use of medicines
- Educating colleagues within NHG and supporting their training. We have trained and supported KTPH pharmacist, and have been heavily involved in the start-up of their oncology services.
- Development of protocol and guidelines for treatment, together with nursing, medical and other healthcare professionals
- To advise on the safe management of high alert medicines
- Promoting a patient focused multidisciplinary approach to the delivery of an efficient, high quality pharmacy service.

There will be opportunities to:

- Be trained and perform medication review of OP oncology/haemato-oncology patients
- Rotate to clinical trials and inpatient for training
- Pursue oncology specialisation

Portfolios of current team members include:

- Subject matter experts in oncology/haemato-oncology/clinical trials contents/workflow for NGEMR (BEACON)
- Risk assessment and management in various areas, e.g. Medication safety team
- Working closely with Medical Oncology/Haematology/Dietetics department to streamline protocol and produce guidelines for patient treatment
- National PIL leads for oncology/haemato-oncology drugs
- Supporting patient education in oncology/haemato-oncology drugs e.g. counselling videos and materials
- Horizon scanning of new drug development, indications and producing regular informational bulletins for medical, nursing and pharmacy colleagues
- Setting up and streamlining drug programmes to aid cancer patients with healthcare costs
- Setting up clinical trials in line with government regulations

- Providing expertise as a member of the Drugs & Therapeutics committee
- Providing support and input as a member of Joint Oncology Innovation Taskforce (JOINT) – e.g. contribute to the NHG Oncology Strategy Plan re: training, services and resources for KTPH and WHC.
- Providing input into the new build in the ambulatory block as a member of the Oncology Line Sub-Committee

Requirements

- Full registration with Singapore Pharmacy Council
- Bachelor Degree / Masters in Pharmacy with minimum 2 years of experience
- Able to work in a fast-paced environment
