

Singapore General Hospital (SGH) is Singapore's public sector flagship hospital. Established in 1821, SGH is the nation's first and largest acute tertiary hospital and national referral centre, providing multi-disciplinary medical care. Our medical, nursing and paramedical teams work in collaboration to provide team-based quality patient care to all our patients.

We invite dynamic individuals with passion for patient care to join us as:

Pharmacist (Infectious Disease)
(SGH/AH/0807/036)

The Job

You will work closely with the Departments of Infectious Diseases, Infection Control and Microbiology to provide pharmaceutical care services in the hospital. You are expected to design, implement, recommend and monitor patient-specific drug regimens. In addition, you will be involved in infectious disease research, teaching and training.

Requirements

- Degree in Pharmacy and be registered (or potentially registrable) with the Singapore Pharmacy Board, preferably with training in Infectious Disease.
- Minimum 3 years experience in inpatient hospital setting with knowledge in infectious disease management and competency in conducting therapeutic drug monitoring.

Pharmacist (Critical Care)
(SGH/AH/0807/037)

The Job

You will be responsible for developing Pharmaceutical Care Services in the ICUs and will work closely with Intensivists and other healthcare providers. You are expected to design, implement, recommend and monitor patient-specific drug regimen and will also be involved in critical care research, teaching and training.

Requirements

- Degree in Pharmacy and be registered (or potentially registrable) with the Singapore Pharmacy Board.
- Minimum 3 years of experience in inpatient hospital setting with knowledge in critical care management.

Pharmacist (Drug and Poison Information)
(SGH/AH/0807/038)

The Job

You will provide professional consultation on pharmacotherapy and toxicology and expected to design and recommend patient-specific regimens. In addition, you will be involved with research, Poison Prevention activities, teaching and training.

Requirements

- Degree in Pharmacy and be registered (or potentially registrable) with the Singapore Pharmacy Board.
- Minimum 1 year working experience in inpatient hospital pharmacy setting; previous drug information residency or relevant training would be an advantage.
- Strong communication skills & IT literacy.
- Knowledge of applied pharmacotherapy and competency in literature evaluation
