

Singapore
General Hospital
SingHealth

**Aspiring Careers
Inspiring Lives**

Singapore General Hospital (SGH) is Singapore's flagship hospital with a multi-generation and diversified workforce of over 6,000 healthcare professionals from Singapore and 30 other countries. With 1,600 beds, it is the largest acute tertiary hospital in the region offering 29 clinical specialties.

If you have the passion for patient care and want to be a part of an exciting healthcare team, join the SGH Family as:

CLINICAL PHARMACISTS

Clinical Pharmacists are crucial to our multidisciplinary teams, which include doctors, nurses, and allied health care providers. These teams intervene in acute or chronic diseases, maintain current health, and/or promote wellness. The key outcomes of a Clinical Pharmacist's care are: maximising the cost-effectiveness of medication therapy, minimising complications, and optimising patients' long-term outcomes.

As a Clinical Pharmacist, you will identify, resolve, and prevent drug-related problems on a daily basis, recommend and monitor patient-specific drug therapy, assure safe and effective alternatives as appropriate, oversee drug distribution activities, and document the outcomes. You will participate actively in regular inpatient clinical rounds and/or ambulatory care clinics. You will also communicate timely and accurate drug information, and provide education to the general public, patients, students, and fellow healthcare workers on matters pertaining to safe and effective medication use. Your research efforts in clinical and/or translational areas will advance the knowledge-base in your speciality area.

In particular, we are looking for pharmacists who have specialised in the following areas:

- [Cardiology \(SGH/AH/0709/058\)](#)
- [Critical Care \(SGH/AH/0709/059\)](#)
- [Endocrinology \(SGH/AH/0709/060\)](#)
- [Infectious Disease \(SGH/AH/0709/061\)](#)
- [Neurology \(SGH/AH/0709/062\)](#)
- [Respiratory Medicine \(SGH/AH/0709/063\)](#)
- [Solid Organ Transplantation \(SGH/AH/0709/064\)](#)

Requirements

- Registrable with the Singapore Pharmacy Council
- Minimum 3 years of clinical working experience with demonstrated clinical competency
- Relevant post graduate degree and/or clinical certification/competency is preferred
