

## REGIONAL EXECUTIVE

**Kyowa Hakko Bio** is a Japanese leading company of bio-technology and fermentation.

Website : <http://www.kyowahakko-bio.co.jp/english/>

Through its subsidiary in Singapore we supply domestic and overseas users with various fine chemical products - centered on amino and nucleic acids for pharmaceuticals, nutritional supplements, and industrial use.

We invite suitable candidates to fulfill the position of a regional executive, based in Singapore, in charge of sales and marketing of our fine chemicals to our clients in South East Asia, India and other regions. The job would involve travelling to these countries. Training will be provided to suitable candidates.

This is an exciting opportunity for pharmacists interested in the fine chemicals market for the healthcare and pharmaceutical sector, working in a global healthcare company.

Interested applicants please forward your resume to [starhub@gmail.com](mailto:starhub@gmail.com).

Only shortlisted applicants will be notified.
