

The vision of the National Healthcare Group is 'Adding years of healthy life'. Towards this end, we will improve health and reduce illness through patient-centred quality healthcare that is accessible and seamless, comprehensive, appropriate and cost-effective. The key to delivering on our promise is our people. As such, we are committed to creating an environment where staff can reach their fullest potential through continuous learning, competitive compensation and benefits, objective performance management, and beneficial staff welfare which are benchmarked against best practices.

Through an integrated network of two Hospitals, one National Centre, nine Polyclinics, three Specialty Institutes and eight Business Divisions, the National Healthcare Group provides public healthcare services of the highest standards in Singapore and abroad. Join us in our pursuit of excellence today.
