

Established in 1844 as one of Singapore's oldest hospital, Tan Tock Seng Hospital (TTSH) is Singapore's second largest acute care general hospital and still maintains its tradition of providing excellent comprehensive healthcare. TTSH is a tertiary referral centre with approximately 1300 beds and 29 clinical departments / services. It is a renowned teaching hospital for both medical undergraduates and postgraduates. In our continuous effort to mould a world-class healthcare system in Singapore, we seek innovative and highly motivated individuals who have the passion in making a difference to the healthcare system.

### **PHARMACIST (Infectious Disease)**

Your main role will be to ensure proper use of antimicrobial agents as part of the TTSH Antimicrobial Stewardship Programme. You will be required to work closely with physicians and fellow pharmacists to provide written and verbal recommendations for appropriate antimicrobial use. Other responsibilities include quality audit and reporting of the programme, case discussions in Infectious Diseases journal clubs and teaching of junior pharmacists.

#### **Requirements:**

- Registered pharmacist with relevant experience in infectious diseases pharmacotherapy will be preferred
- Independent, attentive to details and with good initiative
- Good interpersonal and communication skills
