

Build Your Career with Us as a **Pharmacist** (Intermediate and Long-Term Care)

NHG Pharmacy is seeking highly skilled, clinically-oriented pharmacist who wants to make a difference in the lives of elderly patients.

As an intermediate and long-term care pharmacist, you will play an important role in leading, inspiring and developing the team you work with. Your career with NHG Pharmacy provides you with

- Training for professional leadership
- Support for personal growth and clinical advancements
- Technological tools to support your delivery of care
- Opportunities for local and overseas attachment
- Work-life balance

The Challenges

You will be involved in

- providing high standards of medication management system and pharmaceutical care to our intermediate and long-term care clients
- promoting rational and economic prescribing of drugs and ensuring the best possible clinical outcomes to the residents

You will

- assess, identify and resolve any drug-related problems
- work in an interprofessional team with doctors and nurses in the delivery of long-term/palliative care in a nursing home setting.
- supervise the pharmacy operations

You will also participate in management of diseases by providing high standards of clinical services.
Our pharmacists

- **Review Inpatient Medication Records**
- **Conduct case reviews or comprehensive medication reviews**
- **Run ambulatory clinics**
- **Conduct in-service trainings**
- **Conduct quality assurance audits**

The Requirements

- A degree in Pharmacy and be registered with the Singapore Pharmacy Council
- Team player with a passion to work in geriatric and palliative care.
- Working knowledge of hospital-based care will be an advantage
- Demonstrate and articulate sound clinical knowledge and reasoning, critical thinking, judgment and decision-making in the provision of care
- Good organisational, problem solving and communication skills

"The Silver-Tsunami will hit Singapore by the next decade."

Backed by a dedicated team of pharmacy technicians and the use of automated multi-dose packaging technology, we are proud to be able to offer each pharmacist an opportunity to be the pharmacist they wanted to be – be it in a clinical, operational-oriented or training and research-based setting.

Join us, and take the lead.

NHG Pharmacy recognises the need to provide world-class Intermediate and Long Term Care and has become the leading healthcare institution in providing quality medication management services to nursing homes.

Backed by a dedicated team of pharmacy technicians and the use of automated multi-dose packaging technology, we are proud to be able to offer each pharmacist an opportunity to be the pharmacist they wanted to be – be it in a clinical, operational-oriented or training and research-based setting.

Mr Chong Jiun Yih,
