General Eligibility for Home Delivery Services:

- Is an active patient of the healthcare institution with existing/scheduled follow-up visits.
- Have an existing prescription issued by the healthcare institution less than 1 year ago.
- Have uncollected, balance medicines issued by the healthcare institution.

Note:

1. Some institutions may require the original physical prescription to be kept at the pharmacy. If the original physical prescription is not at the pharmacy, please check with the pharmacy staff on the appropriate actions.

- 2. Most pharmacies only accept refilling of prescriptions with uncollected balance from your latest prescription for home delivery. If you are requesting for a top-up because your appointment has been postponed, please call the general enquiry line of your healthcare institution or the direct clinic line (if applicable) to get a doctor to top up the medications for you. This is because the pharmacy is unable to supply any medications beyond the original prescribed duration.**
- 3. Certain medications may not qualify for home delivery. Please check with your pharmacy on how to obtain them.**
