

Singapore General Hospital is Singapore's largest flagship tertiary hospital with a 10,000-strong multi-generation diversified workforce and a rich 200 years' history. Every year, the SGH Campus caters to over 1 million patients, providing advanced medical care under its 36 clinical specialties.

As an academic medical centre, SGH plays a key role in nurturing doctors, pharmacists, nurses and allied health professionals, and is committed to innovative translational and clinical research to provide the best care and outcomes to patients.

We offer a challenging and conducive work environment with enormous scope and opportunities to meet your career aspirations, advancement and personal development.

We seek suitably qualified candidates to join us as:

1) PRINCIPAL/SENIOR /PHARMACIST

You will be part of a multidisciplinary team intervening in acute or chronic diseases to maintain current health, and/or promote the wellness of patients. On a daily basis, you will identify, resolve, and prevent drug-related problems, recommend and monitor patient-specific drug therapy, assure safe and effective alternatives as appropriate, document the outcomes and oversee drug distribution. This includes active participation in inpatient clinical rounds and/or ambulatory care clinics, as well as dispensing medications and counselling patients on their medication treatment. You will communicate timely and accurate drug information, and provide education to the general public, patients, students, and fellow healthcare workers on matters pertaining to safe and effective medication use. Your research efforts in clinical and/or translational areas will advance the knowledge base in your speciality area.

The Infectious Disease (ID) Pharmacist provide specialty care as a crucial member of a multidisciplinary health care team that includes ID physicians, microbiologists, epidemiologists and nurses. Our ID Pharmacists optimise antibiotic use, maximise cost-effectiveness, reduce antibiotic resistance and promote good infection control within the institution, cluster and at national level.

REQUIREMENT

- Eligible for registration with the Singapore Pharmacy Council
- Relevant experience in General Medicine and/or infectious Diseases
